

# AZURE VIRTUAL DESKTOP IMPLEMENTATION

Streamline Your Workspace implementing modern Desktop Solution in the Cloud

## Maximize workforce efficiency with secure remote desktop solution

Deploy specialized solutions ensuring user comfort and robust security for remote access to organizational resources.

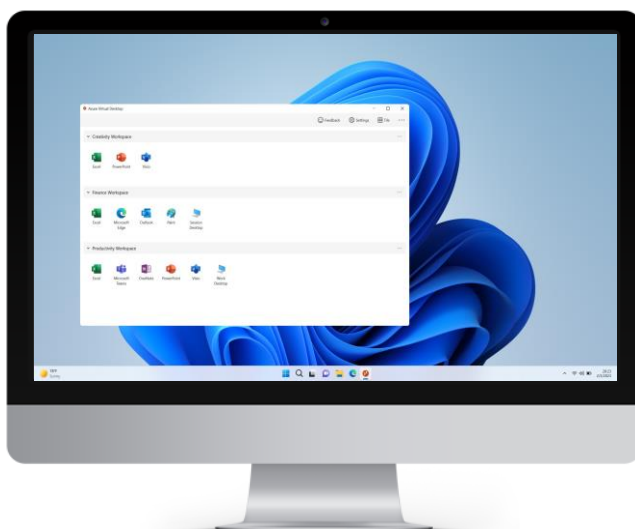

Azure Virtual Desktop offers optimized workstations integrated with OneDrive, Office 365, and Teams, accessible from any device and location. Benefit from top-tier security for network communication and data integrity. Run Windows 10 or 11 in a multi-user environment to optimize infrastructure costs. Manage remote workstations effortlessly through Intune for streamlined operations.

As part of our service, we offer:

- analysis of your environment and needs related to VDI implementation
- preparation of Azure configuration
- implementation of Intune policies for VDI management
- support in migrating users and applications to Azure Virtual Desktop
- transfer of necessary knowledge

## Why choose Azure Virtual Desktop?

1. Access from anywhere to the Windows 11 desktops and apps
2. Maintain full control over configuration and management
3. Optimize costs with multi-session capabilities, and pay for only what you use

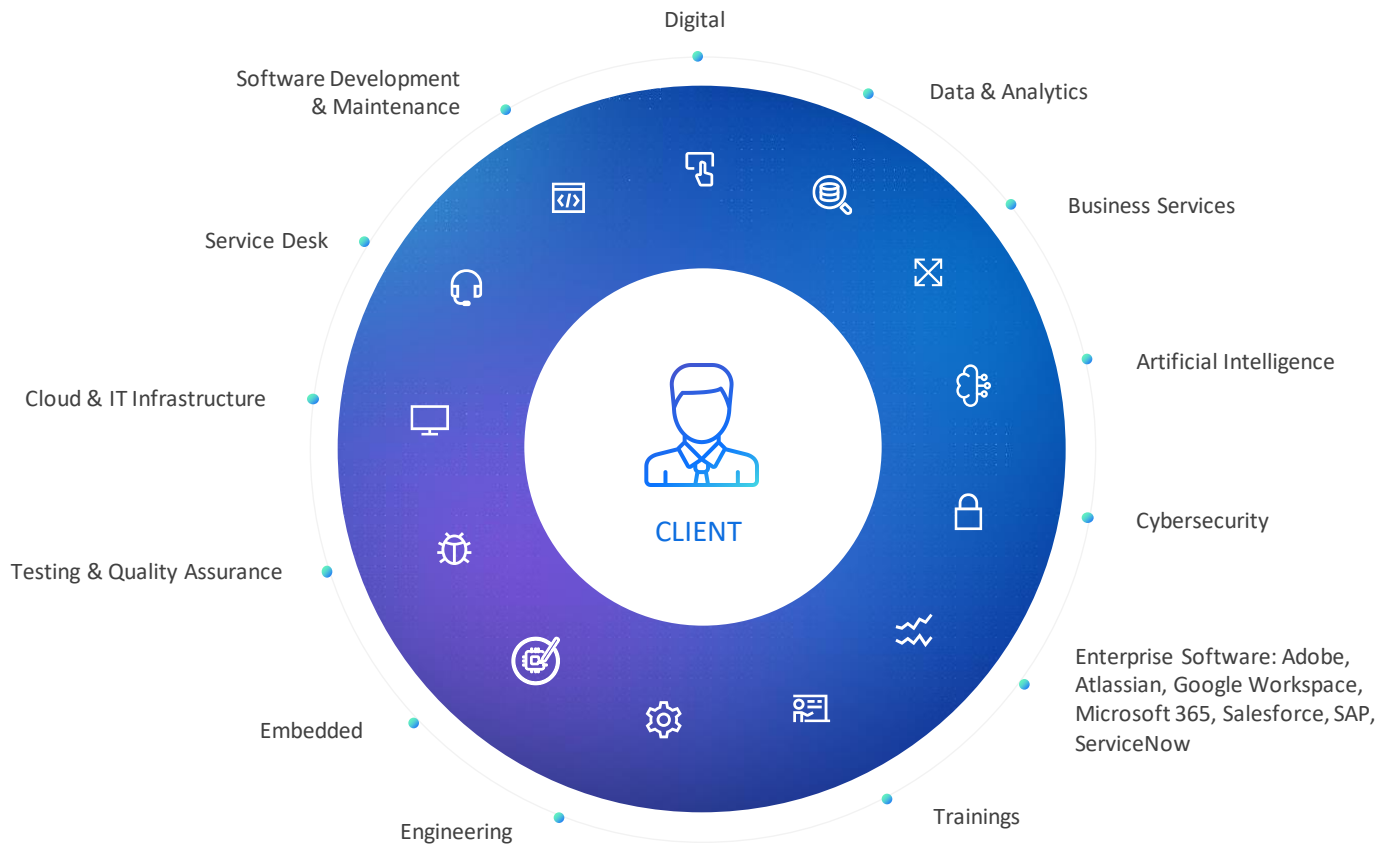

## Why our clients decide on our help

- Clients choose our help for flexible scaling, enhancing efficiency and cost savings.
- Implementing Azure Virtual Desktop, we boost employee mobility, productivity, and security.
- Our advanced security measures ensure data protection and regulatory compliance.
- We simplify management with centralized control, reducing overhead and optimizing resources.
- Our assistance integrates Azure Virtual Desktop seamlessly with Azure, driving innovation and growth.

# Offer – One-stop shop

## Tangible Benefits / Desired Outcomes

- ✓ You take care of your business development - we take care of the cloud
- ✓ Our architects will support you in the latest technologies
- ✓ We are ready to maintain your infrastructure with dedicated support team

Microsoft Cloud

## Why Sii

### 600 certified experts

Solution Architects, Network Engineers, Security Engineers, DevOps Architects, Data Engineers, Azure Administrators, Azure Developer, Cybersecurity Architects, D365 Consultants, Power BI Analysts

### Leading cloud services

Microsoft Azure, Microsoft 365, Dynamics 365, Power Platform

### Innovative industry solutions

For manufacturing banking, healthcare, real estate and public sectors

### End-to-end Project Support

From preliminary data analysis, target model creation, implementation on dedicated devices to maintenance
