

Fabric Technical Briefing

If you are a Data engineering or Data Analytics team who is familiar with Power BI, SQL and ETL tools, but new to Fabric, this is for you.

We can deliver a demo-based complete overview of Fabric, including answering any of your questions on the benefits of Fabric, including licensing. This is your chance to see the platform in action with live code demos, and to discuss concepts with experienced Architects and consultants on the platform.

We can discuss anything related to Fabric, but core content includes:

- One Lake
- The workspace experience and settings
- Data Engineering and Spark
- Data Factory
- Data Warehousing
- Power BI

Duration and Cost

This will take 90-120 minutes and we are currently offering these briefings for FREE.

Next Steps

To book your Fabric Technical Briefing simply email us fabric@prodata.ie.

If you are in the Dublin Area we can come onsite for presentation, or we can always connect on Teams if you need more flexibility.
