INVESTMENT AND M&A STUCK IN THE PAST

The end-to-end M&A process is often resource-intensive, ad-hoc, and antiquated, rendering the deal-flow execution, non-programmatic, slow, inefficient, risky, and very costly

NEW ERA FOR INVESTMENT AND M&A

Positon AI is dedicated to revolutionizing the Mergers and Acquisitions space with our SaaS-based, AI-powered platform, addressing the complexities of M&A workflow and data management. We offer an innovative, secure, and efficient solution that transcends traditional tools, setting new standards in the industry

HIGHLIGHTED FEATURES

- Real-time deal tracking, optimized due diligence, and deal playbook
- AI-powered, automated workflows, reporting, analytics, and decision support
- SOC 2 Type 2 certified, with security built from the core to the edge
- Robust Sourcing and Pipeline Management via the Positon Network
- Automated response review, file redaction, watermarking, and much more!

USER BENEFITS

- Faster deals with confidence
- Easy, governed collaboration
- Find better deals and partners
- Easy reporting and compliance
- AI-powered analysis & support
- Deal performance management

SUBSCRIPTION PACKAGES

Modular plans based on actual value provided to support deal execution and flow, not on storage blocks or the number of pages

- Enterprise** – serial acquirers with unlimited* storage, users, and vaults
- Premium** – best for acquirers doing less than ten deals a year
- Standard** – ideal for VC, Accelerators/Incubators
- Essential** – suited for startups through SMB
