Value out of Cloud

A data-driven cloud maturity assessment of process, technology, and people to guide decision-making, investments, and training that help shape the roadmap to business outcomes

What We Offer

Our workshop consists of a detailed diagnosis by analyzing participant questionnaire responses in three broad categories – Process, Technology, and People. At the end of the workshop, you will receive a report with tabulated composite scores and a plan to address deficiencies.

VooC Maturity Model Tabulation

		Maturity	Corresponding Score	Composite Score
Processes	Release Management	Experimental	1	**1.90**
	Branching Strategy	Legacy	0	
	Quality Testing	Systematic	3	
	Performance Management	Optimized	4
