

A Guided Pilot Implementation

# Microsoft Intune Suite Pilot Engagement

A NETRIX GLOBAL OFFERING

Microsoft Intune Suite unifies mission-critical advanced endpoint management and security into one simple bundle.

Let us help you pilot Intune Suite so you can learn, understand and plan for a full-scale deployment. Netrix has extensive expertise with endpoint computing solutions with Microsoft Intune Suite being a key component of our management toolset.

## What to expect.

A six (6) week, fast paced engagement that includes time with our endpoint computing experts to work through a four (4) phase process.

- Plan & Envision: A plan for the Microsoft Intune Suite deployment for generally available components is generated.
- Build: The foundational Microsoft Intune Suite components are built based on the generated design.
- Prepare: Intune Suite functionality is reviewed with the business.
- Deploy: Deployment and support of the initial production pilot.

## Who is this for?

- IT professionals currently planning or in the middle of a Microsoft Intune Suite deployment.
- CIOs and technology leaders that need to understand the full capabilities of Microsoft Intune Suite.

## What do you get?

- Microsoft Intune Suite documentation.
- As-built documentation of the configured solution.
- Pilot implementation including Remote Help; Endpoint Privilege Management; Tunnel for App Management; and Specialty Device Management.
- Additional education around Advanced Endpoint Analytics; Enterprise App Management; Multiple Managed Accounts; and Cloud Certificate Management.
