Why Connection Copilot for Microsoft 365 Workshop?

Our Connection-led workshop can help grow your understanding of AI and guide you in harnessing the potential within your educational organization.

Connection will advise you on how to modernize your data so Copilot can be used to discover and effectively utilize your information in a safe and secure environment.

Our experts will provide a review of your current technology to determine any gaps or needs before you purchase Copilot.

Our workshop will equip you with a better understanding of your ROI and how Copilot can increase your organization's productivity.

Connection Copilot for Microsoft 365 Workshop

Our comprehensive workshop helps you assess your needs, prioritize Copilot scenarios, and define an actionable roadmap.

Three-phase Workshop

Assess

- Define scope, identify stakeholders, and gather information on key business scenarios
- Complete readiness assessment
