# << EDI-Knock-Out >>

**Fed up?  
We help!**

>>

The EDI project makes you feel like you're on an endless odyssey...

Monstrous system landscapes: Please do not touch, otherwise everything will blow up in your face.

You are drowning in an avalanche of requirements, standards, conformity specifications, etc.

Tens of thousands of EURO spent again on software adaptations, and nothing works!

# Essentially Practical – linQsupply®

If you want to establish **electronic data interchange** in your company, you usually find yourself in a project of gigantic proportions. It's easy to lose track of things and the costs become immeasurable.

**When all you really want to do is just send your invoices!**

With **linQsupply®** you get a handy, simple solution, to bring your data efficiently from A to B: **You save time, money and nerves.**

## Challenge

- Your customers expect **paperless communication** in the ordering process: Orders, order confirmations and invoices must be electronic.
- Also, the **e-invoicing obligation for B2B** is coming soon - don't wait too long and prepare for it in a good time.

## Solution

- EDI with **linQsupply®**: Get **started in 30 minutes** and connect business partners with ease.
- You don't need any extra infrastructure, networks, etc.
- Contains a **variety of API interfaces**, e.g. for **Peppol**.
- Always together: linQsupply® includes our **Managed EDI Services**.

## Result

- Modern, efficient order processing -> increased quality in customer service.
- Easy customizing, individually according to your wishes and needs.
- linQsupply® is also available as a white label and offers the opportunity for new business models.

# Your Messages Are Sure To Arrive: With linQsupply®

## What is it?

- A **SaaS platform** for **electronic data interchange**
- Free onboarding
- Ready to go in **30 minutes**
- Highly flexible, customizable and expandable as needed
- Built on **Microsoft Azure cloud technology**

## What is it good for?

- For **exchanging electronic messages** (orders, invoices, etc.)
- Supports all common standards (**EDIFACT, Peppol**, etc.) and protocols (**AS2, AS4**, etc.)
- Supports collaboration as a project workspace is included

## Who is it for?

- For companies with a large number of different business partners (customers, suppliers, authorities, etc.)
- Ideal for small and medium-sized companies
- For anyone who wants a simple, practical EDI solution

# Why linQsupply®?

- **Free onboarding:** Quick and easy. You do not need your own infrastructure, networks, etc.
- **Ready to go in 30 minutes:** Just half an hour and you can start connecting with your first business partners straight away.
- **Absolute transparency:** Shared data view for you and your respective business partner -> Secure control and fast error correction. You can track where your data is at any time.
- **Intuitive user interface:** Clear, concise and easy to use.
- **Data transformation:** If required, data can be converted into all common standards (e.g. XML, EDIFACT, Peppol-BIS and more).

- **Independence thanks to the cloud:** linQsupply® is based on Microsoft Azure cloud technology. You don't need your own server and have secure access to your data from anywhere.
- **Practical APIs:** linQsupply® comes with a variety of useful API interfaces, e.g. for the Peppol network, SAP Ariba or Shopify.
- **Customizing and white-label use:** linQsupply® can be individually adapted and expanded according to your wishes. White label use is possible, too.
- **Integrated workspace:** Facilitates transparent, clear planning and implementation of your EDI projects and improves collaboration.

# We Take Care

Because standing on two legs is much more stable than standing on one, we not only provide you with a smart software solution, but also with the support of our comprehensive services.

## Managed EDI Services

We take care of your concerns – no matter if you require help with setting up **linQsupply®**, if you are in need of a specific interface or **data transformation**: Our competent support team will take care of your request for flawless electronic data communication in any case.

## E-Invoicing

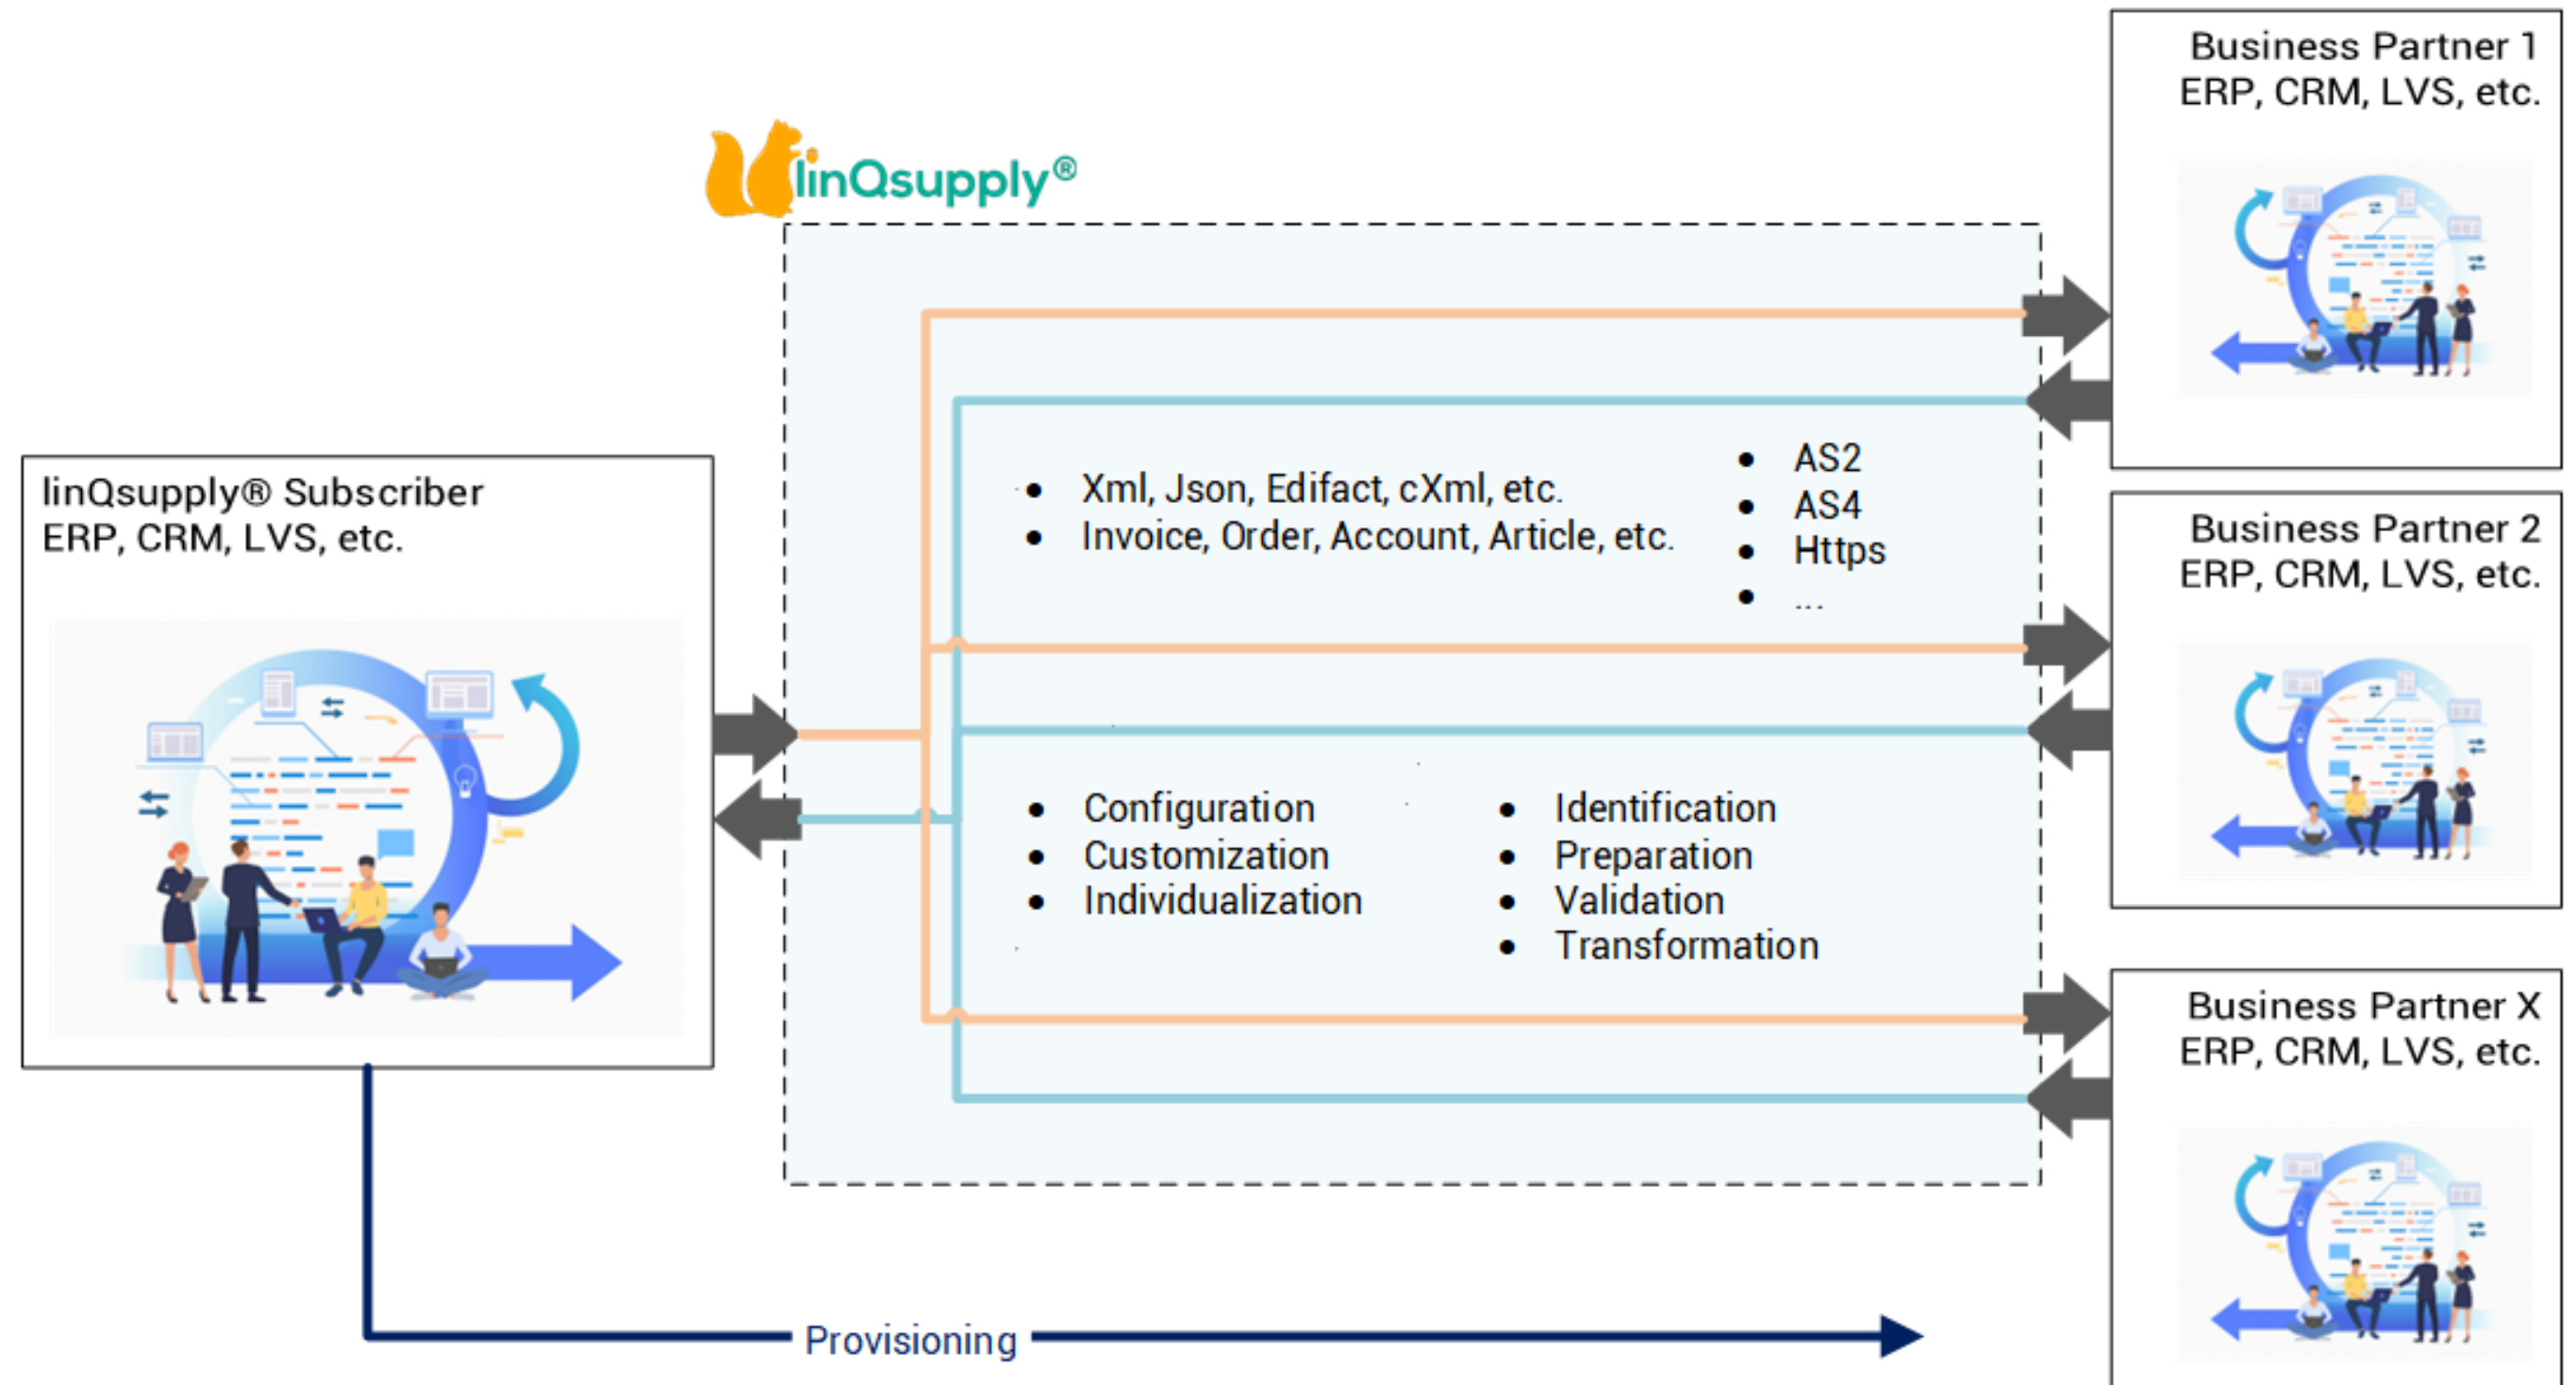

As a **certified [Peppol Access Point](#)** we provide you access to the **Peppol network via linQsupply®**. This allows you to send your e-invoices easily and **EU-wide** to authorities, for example. Do you need to convert to a data format in accordance with **EU guidelines** beforehand? This can be easily realized with linQsupply®.

## Consulting

We are happy to support you on your path to **digitalization** with our expertise and experience. Whether it's analyzing your business processes, developing a **strategy** for implementation or project management: We work with you to develop **solutions that suit your business** and take your individual requirements into account.

# linQsupply® In Action

You can provision your business partners and exchange initial messages just 30 minutes after activating your linQsupply® account. Additional interfaces can be implemented, data transformed, and individual adjustments made as required.

# Let's meet and talk: Get to know linQsupply®

Would you like to find out more about our EDI platform **linQsupply®**, experience a product demo or ask for advice on EDI?

We would like to invite you to **make an appointment** for an initial consultation, where we will take care of your request and answer your questions.
