# SharePoint Employee Spotlight

Employee Spotlight is a SharePoint app part that features or highlights employee birthdays and work anniversaries. It is updated through a Power Automate Automated Cloud Flow. Employee details should be updated in either Azure Active Directory as Custom Extension Attributes or SharePoint User Profile Properties.

How it's Made

- Power Automate Cloud Flows
- Azure Active Directory or SharePoint User Profile
- Deployed on Modern SharePoint with Custom List formatting
- Uses Standard SharePoint list for data storage
- Employs List View web part for display
- Birthdays do not include year
