

# BENEFITS OF CAPTURE AI SOLUTION

## Workload Management

Enable work distribution and multiple operation team members to work simultaneously to validate extracted information documents.

## Seamless Integration

Ingest documents effortlessly from physical to digital, integrating with electronic systems via RESTful interfaces.

## Multimodal Recognition

Processes machine-printed, handwritten, and marked information with advanced recognition technologies.

## Secure Data Access

Enable Role Base Access Control (RBAC) based on document type and ensure PHI/PII information are only viewable by authorized users.

## Code-Free Scaling

Simplifies adding new use cases, relying on training data rather than complex coding.

## Flexible Customization

Adapts easily to new requirements with minimal cloud or full-stack knowledge.

## Intuitive Verification

Enforces business rules and allows for human-in-the-loop manual data verification through a user-friendly interface based on defined triggers.
