# WE GET NEEDING TO SECURELY ACCESS YOUR DESKTOP FROM ANYWHERE.

CDW Amplified™ Endpoint
Windows 365 Pilot

Providing employees the flexibility to work from anywhere is on the rise. Organizational expansion and change are needed to allow end users access to a familiar Windows desktop experience, wherever and whenever, across all devices. With the Windows 365 Pilot, organizations are able to adopt scalability, growth and increased productivity to adapt to business demands. By providing a pilot of cloud PCs, CDW helps organizations' IT to scale their end users' access to data, settings and applications, increasing overall work performance.

CDW's Windows 365 Pilot can help you achieve:

- Operational Efficiences
- Agility
- Increased Performance
- Faster Innovation

Orchestrating the Right Solution

CDW's Windows 365 Pilot helps your users utilize the device of their choice, all while securely accessing their data, settings and applications from a single cloud PC. The Windows 365 Pilot provides users these benefits:

· Understanding of the features and benefits of Windows 365

· CDW-led design and deployment of applications and desktops for virtualized Windows 10 and Windows 11 operating systems

· CDW evaluation of the integration of Microsoft Endpoint Manager compliance and conditional access policies

· Knowledge around best practices on deployment, management and integration

Once the solution is in place, end users can enjoy the following Windows 365 features:

· Enhanced security when accessing virtual desktops and applications

· Optimized solution that routes end users to the appropriate virtual workspace, whether URL or Microsoft's Remote Desktop client

· Integrated network connection and management through Microsoft Endpoint Manager

CDW GETS MICROSOFT

CDW is uniquely qualified to design IT solutions that help remove complexity and unnecessary costs from your organization. Our experts become part of your team, providing the support you need, when and where you need it.

We help you navigate Microsoft's robust array of solutions, including Windows. CDW is an end-to-end provider of cloud applications, solutions and services in public, private and hybrid environments. Based on your organizational demands, we help you plan, deliver and manage a flexible solution tailored to your needs. We offer outstanding providers, risk mitigation strategies and dedicated personalized expertise to deliver economic and operational benefits.

We get Microsoft Windows. And we can share our knowledge with you, so your organization can spend less time managing software and more time putting it to work.

CDW's full lifecycle of Services can support your business no matter where you are on your journey

- Design
- Orchestrate
- Manage
- On-Premises
- On-Journey
- Cloud-Based

CDW | CDW AMPLIFIED™ SERVICES

Services Overview

The following is included with CDW's Windows 365 Pilot:

Service	Included
Assessment: Evaluating the existing environment and readiness in implementing Windows 365 virtual instances for users to utilize as their own personal desktop. The service will include analyzing current on-premises images and security protocols throughout your environment to customize the best solution for your users.	✓
Envisioning: Working with your team to understand how they work today, and how Windows 365 fits into their workflows by developing high-value use cases.	✓
Planning and Design: Workshops with your administration team and project stakeholders to ensure Windows 365 meets all the necessary requirements to support the end-state environment.	✓
Success Planning: Working with the appropriate project team members and stakeholders in a series of formal and informal sessions to discuss the development and execution of the customer training, communication and support requirements that will benefit the organization most.	✓
Build and Pilot: Setup and configuration of Windows 365 as specified during the design and planning, including gallery and custom images for testing and validation through pilot groups.	✓
End-user Enablement: Helping your users not only understand how Windows 365 works, but also helping them understand how it works with their workflows through onsite end-user training, video on demand and end-user training guides.	✓
IT Success Sustainment: Uplifting your support staff to continue the success that is built through the rest of the engagement through FAQs, administrative training and best practices.	✓
Marketing and Communications: Raising awareness and excitement within your user community by creating engaging communications to your critical stakeholders through items such as email, signage and newsletters.	✓
Manage and Measure: Reviewing qualitative and quantitative data to provide you with actionable recommendations to increase your adoption of the platform.	✓
