

License Activation

In order to continue using Nerdio Manager past the trial period, you must subscribe to our billing offer listed on the Azure Marketplace. This allows Nerdio Manager to report usage to Azure Marketplace. Based on your usage, you are charged for Nerdio Manager on your Azure bill from Microsoft.

Note: Activating the license also creates a new app registration in Azure AD. By default, this is named NerdioManagerForWVD-Subscribe. This application is granted Azure API permissions allowing you to authenticate and subscribe to the license. Please see Azure Permissions and Nerdio Manager for additional details.

To activate the Nerdio Manager license:

1. Sign in to your Azure portal as a **subscription owner** of the subscription where you plan to install the billing offer for Nerdio Manager from Azure Marketplace. The subscription you select can be different from the subscription where you installed Nerdio Manager for Enterprise.
2. Search for "Nerdio Manager."
3. In the **Marketplace** section of the search results, select the **Billing subscription to Nerdio Manager for WVD** option.

4. Enter the following information:

Plan details

Subscription * ⓘ	Microsoft Azure
Resource group * ⓘ	(New) Create new
Resource group location *	East US
Name * ⓘ	

- **Subscription:** From the drop-down list, select the Subscription.
 - **Resource group:** Select **Create new** to create a new resource group.
 - **Resource group location:** From the drop-down list, select the resource group's region.
 - **Name:** Type "BillingForNerdioManager".
5. Once you have entered all the required information, select **Review + subscribe**.
 6. Review the **Terms of Use**.
 7. Select **Subscribe**.

The offer deployment starts. It takes about 2-3 minutes. A **Subscription is in progress** message displays.
 8. Once the deployment is complete, select **Configure account now**.
 9. Select the installs you want to start billing for.

Note: You generally have only one install of Nerdio Manager, so you see one item listed.

Billing is based on Monthly Active Users (MAUs). MAUs are the number of unique users that connected to an AVD desktop during the past month or are assigned to Windows 365 Enterprise Cloud PC at any given time in the past month.

Select to confirm	Subscription	Install ID ⓘ
