Up to 40% More Cost Effective

With economies of scale and proven Azure migration processes

60% Faster Time to Value

Leveraging automation for collection and deployment with established templates

Reduced Delivery Risk

With proven frameworks backed by 10,000+ development hours

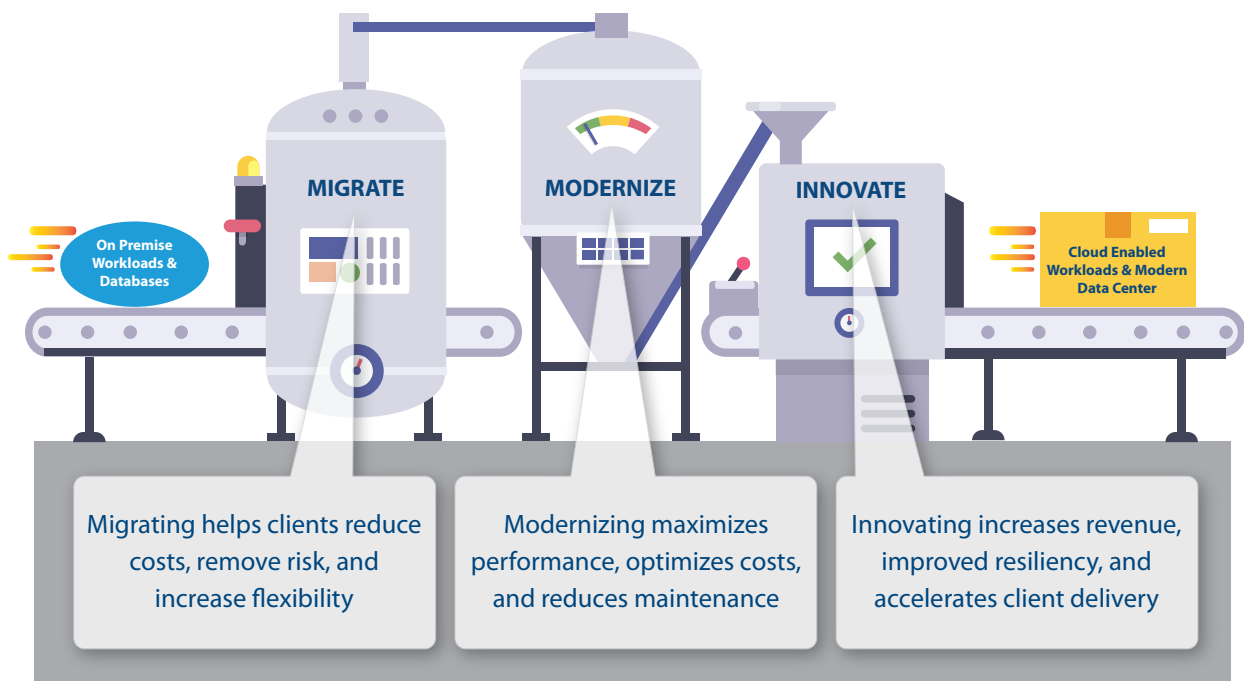

Single Cohesive Team Delivery Model

Disciplined delivery by fully onshore or hybrid team to reduce errors

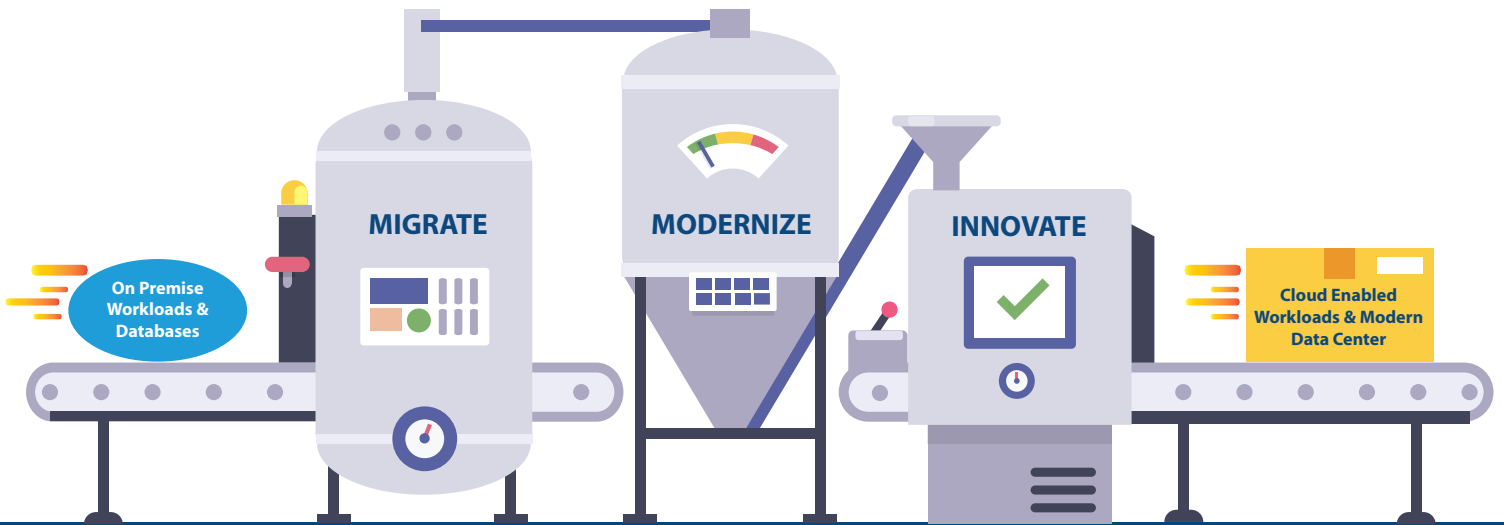

The Neudesic Cloud Factory is a repeatable framework that accelerates the typical migration and modernization timetable to provide more value to organizations in less time. The Cloud Factory is powered by automation, delivered by a single onshore or hybrid team, and fully aligned to the Microsoft Cloud Adoption Framework.

The Neudesic Cloud Factory enables teams to concurrently migrate and modernize multiple applications to increase scalability, flexibility, and meet the diverse needs of our clients with a three-prong approach:

How Our Cloud Factory is Different

While the concept of a migration factory isn't new, the Neudesic Cloud Factory offers a variety of unique characteristics that have been consistently proven to reduce cost, add value, and accelerate overall client modernization in the cloud.

Portfolio Rationalization Up Front

To pre-assign workloads to pods & accelerate development

100% Onshore Delivery Option

Ensures seamless delivery when offshore resources aren't viable

Flexible Cost-Effective Model

Based on a migration-as-a-service cost model, we can reduce cost for multiple pod utilization & longer-term contracts

Cloud Knowledge Transfer and Upskilling

Providing domain knowledge to client teams around DevOps, Kubernetes & cloud-native skills

Specialized Teams for Industry Compliance

Ensures compliance with key regulations & overall risk reduction

100% OPEX Model

Allows organizations the flexibility to budget on a monthly basis

Our End-to-End Approach for Migration

Let Neudesic help guide your cloud transformation journey with a proven end-to-end approach to maximize your organizational investments and reduce overall time to value.
