# Power Platform In A Day - Explore the boundaries

Microsoft Power Platform
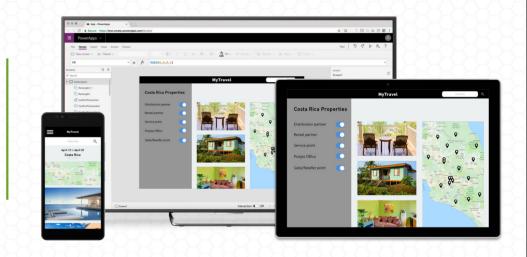

The low-code platform that spans Office 365, Azure, Dynamics 365, and standalone applications

Innovation anywhere. Unlocks value everywhere.

Power BI
Business analytics

Power Apps
Application development

Power Automate
Process automation

Power Virtual Agents
Intelligent virtual agents

Data connectors
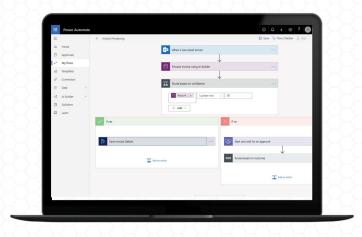

AI Builder

Dataverse

Build and consume solutions for web and mobile with Power Apps

- Build highly customized task- and role-based canvas apps with data from one or multiple sources

- Generate immersive model-driven apps, starting from your data model and business processes

- Consume fully accessible apps across web and mobile, embedded or standalone, on any device

Automate and integrate business processes with Power Automate

- Automate and model business processes across your apps and services

- From simple automations to advanced scenarios with branches, loops, and more

- Trigger actions, grant approvals, and get notifications right where you work

- Automate legacy, on-prem and cloud-based applications and services

Cloud and on-premises connectivity

- Built-in connectivity to over 450+ cloud services, files, databases, web APIs, etc.

- Seamless hybrid connectivity to on-premises systems via the On-Premises Data Gateway

- Build custom connectors for everyone to leverage

Gain insights from your data regardless of where it lives with Power BI

- Connect to all your data and get a consolidated view across your business through a single pane of glass

- Create ad-hoc analysis, live dashboards and interactive reports that are easy to consume on the web and across mobile devices

- Build smart apps by infusing insights from your data and drive action with the power of the Power Platform
