

Revolutionize Your Coding with AI:

Indonesia Virtual GitHub Hackathon

4 April 2024

Virtual GitHub Copilot Hackathon

Discover the power of generative AI at the Indonesia Virtual GitHub Copilot Hackathon 2024—an exciting online event poised to transform your coding experience. In collaboration with Microsoft and GitHub, we invite developers and clients to explore new frontiers of innovation using GitHub Copilot's advanced features. Following the success of our first virtual hackathon, we're thrilled to announce our second edition, offering even greater opportunities for collaboration, learning, and software development breakthroughs.
