

Needs Assessment for Microsoft Power Platform

Connect your processes, people, and data to help you do more

Simplify the way you do business and make your favorite tools do more for you using Power Platform to connect and streamline everyday processes and systems. During the engagement, we'll work together to help you find the sticky parts that slow you down and resolve them.

Work with our experts to solve key challenges and unlock efficiency

Through our partnership with Microsoft, we can help you imagine a future state for your business that more efficient and data driven. The Needs Assessment engagement starts with a review of your business followed by a guided discovery and visualization of solutions. It ends with a clear, actionable picture of how we can help you reach your goals.

What will we learn?

See all the ways your organization can improve processes and efficiency without requiring complex solutions.

Who should attend?

Include Sales Director, VP of Sales, other executive-level sponsors, as well as managers, and individual contributors.

What happens after?

Get a scope of work for a specific solution or proposal for platform implementation along with success proof points.

Get to know Tietoevry

With extensive solution development experience, Tietoevry can help you improve workforce productivity through automation of key business processes, leveraging the Dynamics platform. We will work with you to understand your environment and identify opportunities to help you achieve continuous business value from your investment.

The power of imagination

Imagine the future state of your business and achieve your goals faster with Power Platform solutions that help you:

- Transform everyday work processes
- Increase collaborative brainstorming
- Reduce the risk (and time) of new projects

Schedule your Needs Assessment Workshop with us today!
