it.XIA Cross Information Application

Digitization of processes with MS 365 und SAP

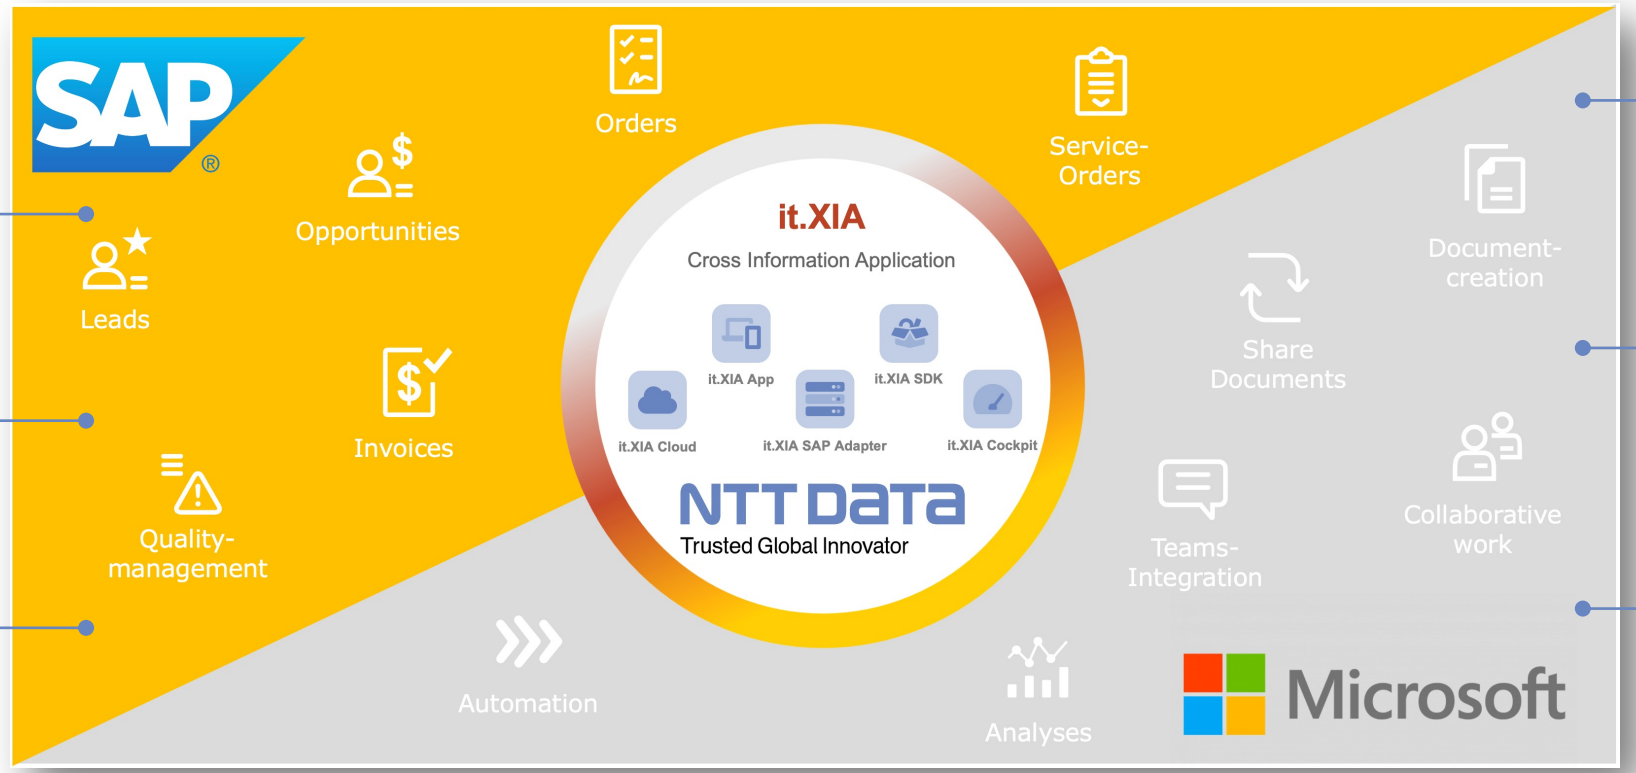
The best of both worlds

Connecting Microsoft and SAP? Why?

Data critical to the company
As a source for the entire company

Process strength
via various business units

Company strategy
with a view to the future



Modern Workplace
together with MS 365

Standard
for communication and documents in many companies

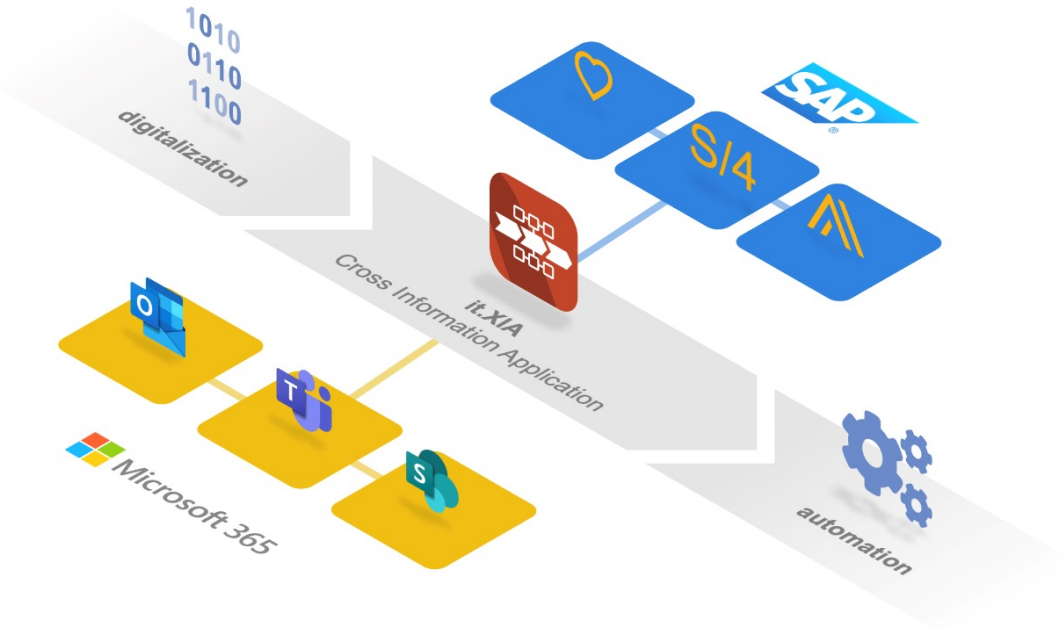
Azure Services
as a supplement for various applications

*"Linking **SAP** and **Microsoft** creates a true **Modern Workplace** with **tremendous potential added value** for both **processes** and **users**."*

The best of both worlds

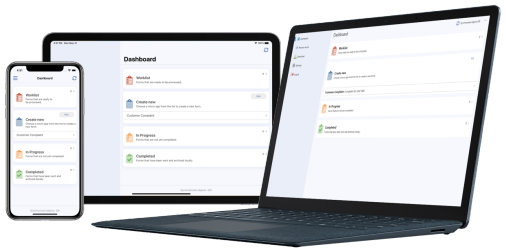
it.XIA Vision

*"If companies are serious about **digitization and Modern Workplace**,*
*you have to look **beyond the SAP horizon**.*
It is not enough to look at cloud solutions and systems separately.
*With **it.XIA** we are connecting **Microsoft and SAP, highly integrative** and with the **added values from both worlds**,*
*to optimize the **potential** for **users** and **processes**."*



What can it.XIA do?

it.XIA Cross Information Application



Smart Data Capturing with it.XIA App

The native it.XIA App for Windows, Android and iOS enables your users to run the Micro Apps and smart data collection on smartphone, tablet and PC - even offline!

Flexible integration platform in the cloud

The it.XIA Cloud offers you flexible options for uniformly processing your data or automating process steps. For this purpose, you can easily integrate Azure Cloud Services and Microsoft 365 solutions.

Connection to SAP processes

Using our adapter architecture, you can connect enterprise systems to the it.XIA Cloud and thus update your data in the backend system. SAP systems can be easily integrated with our standard it.XIA SAP Adapter.
