

Value out of Cloud 12 Hours Workshop

Discover how we optimize your Cloud journey with Eviden. Gain insights through workshops assessing your current maturity level, mapping capabilities, and strategic gap analysis for focused improvements.

What We Offer

- **Workshop Assessment:** In a half-day workshop, we collaborate with you to understand your current level of maturity in Cloud adoption. We identify the drivers shaping your journey.
- **Maturity Mapping:** We analyze the information gathered in the workshop to assign maturity scores to each Cloud-related capability. This provides a comprehensive view of your current Cloud journey value.
- **Data-Driven Insights:** We consolidate capability scores into composite scores across three categories: Processes, Technology, and People. This data-driven approach empowers strategic decision-making based on real insights.

Value out of Cloud 12 Hours Workshop

How it Works

- **Gap Analysis and Focus Areas:** Identify areas for improvement by understanding which capabilities are accelerating or lagging within your organization. Receive a list of focused investments and training to increase maturity and value from your Cloud adoption.
- **Addressing Challenges:** If you're not achieving the expected ROI or value from your Cloud adoption or feel your organization is lagging in its Cloud journey, we offer tailored solutions to address these challenges.
- **Continuous Improvement:** Our process helps organizations evolve from opportunistic to systematic and experimental stages, ensuring ongoing transformation and maximizing the benefits of Cloud technology.

Execution Strategies and Solutions
