Carizma - Contract Lifecycle Management

B2B Complexity tamed

Manage B2B contracts across several departments and locations over a long time - easily, intuitively and reliably

What is Carizma?

Carizma manages the entire contract lifecycle – from first negotiations all the way to contract expiry many years later. Document creation, repository, analysis and integration

Manage B2B contracts across several departments and locations

- Easy to implement
- End-to-end solution
- Integrates the tools you already use

Functions

- Draft, track and store all contracts along the lifecycle
- Capture key contract elements and commitments
- Transparency: Understand who your company is talking to

Software designed by business people for your B2B partnering needs

Process support

- Workflow for review and approval
- Personal dashboard for cases in your responsibility
- Automatic capture of all related E-Mails
- Further accelerate processes with e-signatures

Your processes will run faster with less errors

Long-term management

- Automatic reminders
- Transfer responsibilities when team members change

Our customers have been managing contracts with Carizma for over 10 years.
