

DATA SECURITY

# Workshop

## Data security requirements are evolving rapidly

There are more remote workers than ever. Collaboration is at an all-time high. People access data from a variety of devices.

Is your data security strategy keeping up?

## It's time for a new approach using Microsoft Purview.

What is it? Microsoft Purview delivers comprehensive data security by integrating information protection, data loss prevention, and insider risk together to help you better understand and mitigate your data risks.

## Basic data security policies are no longer adequate.

Today's data security demands layers of protection to help safeguard your data, wherever it lives.

1. Protect sensitive data throughout its life cycle
2. Identify risks by understanding how people access and use data
3. Prevent data from unauthorized use

## Data security has become one of the most common cybersecurity risks.

**83%**

ORGANIZATIONS EXPERIENCE MORE THAN ONE DATA BREACH IN THEIR LIFETIME

**44%**

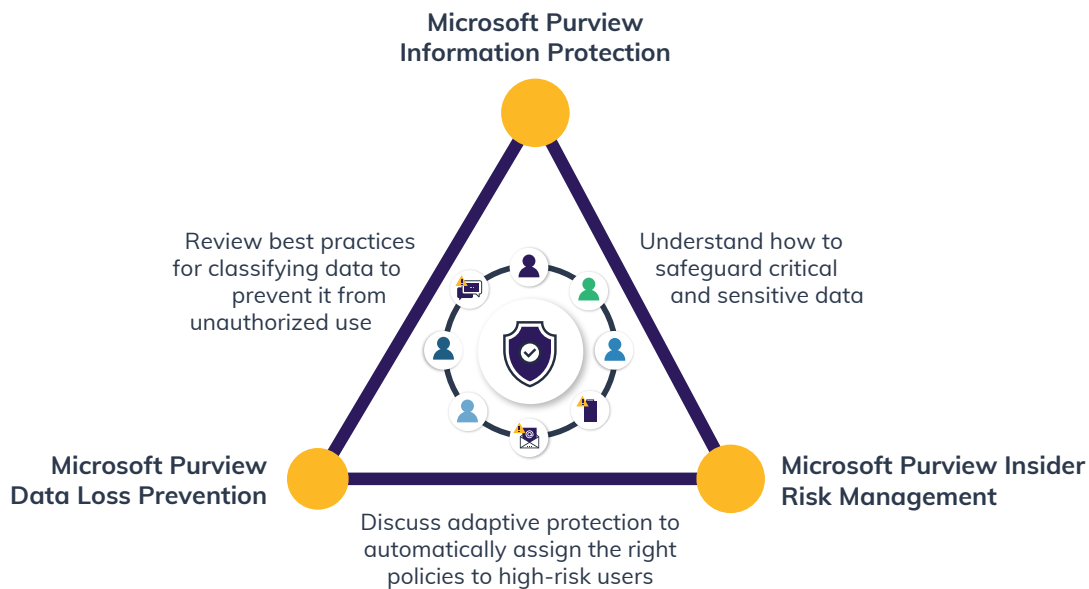

INCREASE IN INSIDER-LED CYBERSECURITY INCIDENTS SINCE 2020

**15.4M**

AVERAGE COST OF ACTIVITIES TO RESOLVE INSIDER THREATS OVER A 12-MONTH PERIOD

## Three layers of protection to safeguard all your data.

## WHAT WE DO

Over the course of this two-day workshop, our experts in Microsoft data security and compliance will work with your team to provide:

- ✔ Insight into the current state of your Microsoft 365 readiness for data security, as well as an overview of your requirements as they relate to M365 compliance, governance, and risk management solutions.
- ✔ Interpret privacy and regulatory risks identified and observed during the engagement.
- ✔ Suggest improvement actions to help you comply with the standards and regulations that are most relevant for your organization.
- ✔ Recommended activities and next steps toward a company-wide roll out of Microsoft Purview products and services.

We have decades of experience supporting customers with highly complex data security and protection needs. Our customers span a wide variety of regulated industries, including financial services, insurance and health care – to name just a few.
