Identify Insider Risks Intelligently

ABOUT ECF DATA,LLC:

Since 2010, ECF Data has been helping companies implement IT efficiently and effectively by placing its focus on the client's unique needs and goals.

WHAT WE OFFER

Because of the surge of external cybersecurity risks, most businesses prioritize that for the longest time. However, because there's also a surge in trusted insider risks, organizations are starting to see that establishing controls that give them the power to quickly identify and manage insider risks are essential as well.

Having an integrated method to quickly identify, triage, and act on threatening insider user activity is essential, especially when experiencing an expansion of business-critical data and shifting to remote work.

ECF Data offers the Microsoft Manage and Investigate Risk Workshop, which offers the following:

• Documentation of your objectives and strategy around insider risks
• Demonstration of how to identify, investigate, and take action on Insider risks.
• Illustration of ways on how to boost compliance journey with the latest Microsoft technologies
• Delivering of actionable next steps based on your needs and objectives

Intelligently investigate and take action on insider risks through this Microsoft Manage and Investigate Risk Workshop. Contact any ECF Data representative to avail it for FREE.

See what customers are saying:

"The Manage and Investigate Risk Workshop enables us to protect our expanding organization not just externally but internally as well.

– Tony Gage, Vice President of IT, Curaleaf

Why Microsoft 365?

Save your company money

Microsoft 365 is available as a simple monthly subscription. Avoid large up-front costs for new software while moving the cost of IT from capital to operating expense. And without on-premises servers to run email, websites, and document storage, you can reduce energy costs and save by no longer purchasing new server hardware.

Scale your business quickly and flexibly

Microsoft 365 grows with you on the Microsoft Azure cloud. Adding a new user is as simple as buying an additional license, which allows access to business-critical technology on up to five PCs/Macs and five mobile devices. Microsoft 365 provides many plans to fit the right capability needs and price points for each user in your organization.
Technical support

Your Microsoft 365 subscription comes with 24/7 support from a global network of experts, with one-hour response for critical, service-impacting events.

Financially backed SLA

Get peace of mind knowing your services are available when you need them with a financially backed, 99.9% uptime service-level agreement.

Simplified IT management

Reduce headaches by reducing your IT infrastructure. Content lives safely in globally distributed data centers with continuous backup and disaster recovery abilities.

Microsoft 365

Microsoft 365 is a cloud-based subscription service that brings together the best tools for the way people work today. By combining best-in-class apps like Excel and Outlook with powerful cloud services like OneDrive and Microsoft Teams, Microsoft 365 lets anyone create and share anywhere on any device.
