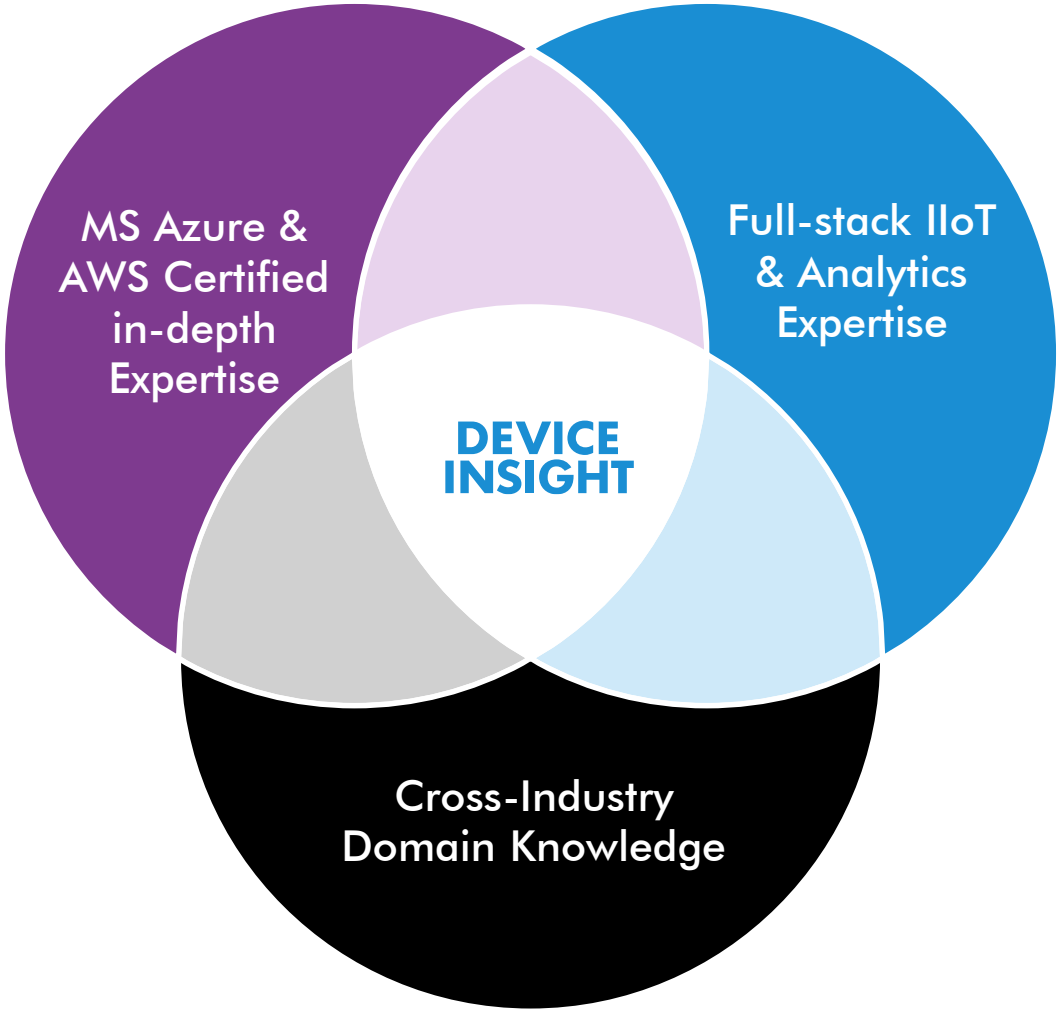
DEVICE INSIGHT

From ideas to insights: CENTERSIGHT scale

It's in our DNA: IoT & Analytics



DEVICE INSIGHT

20 yrs of shaping the market

100+ experts for your project

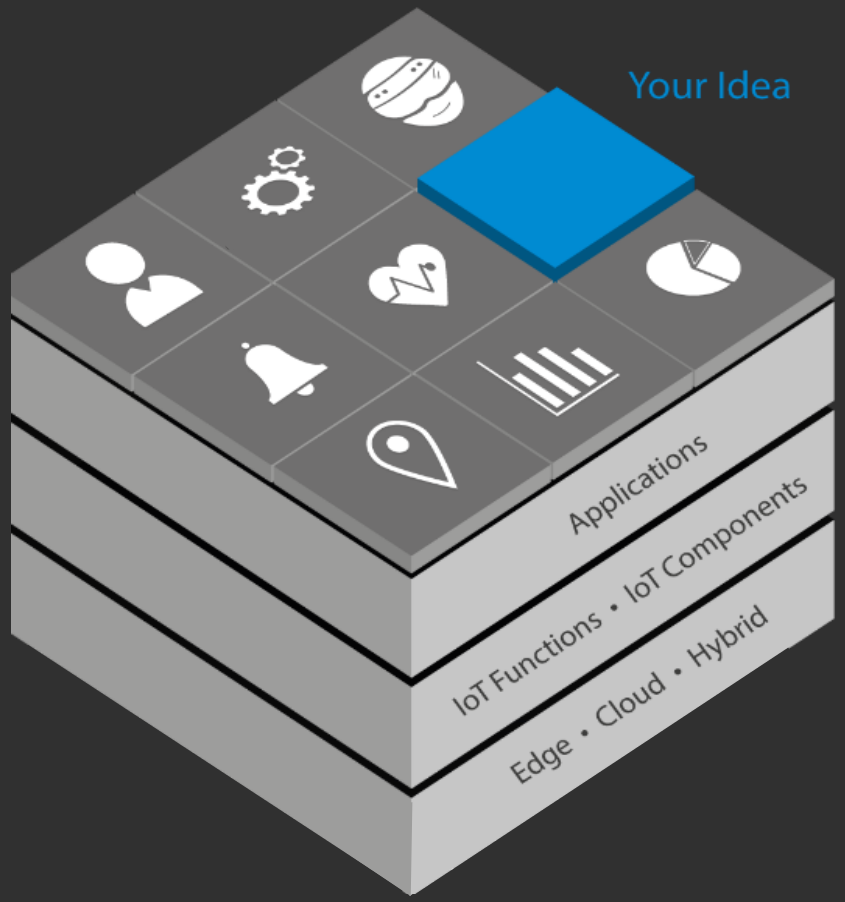
200+ projects implemented

CLOUD solutions made in Munich

KUKA company since 2019

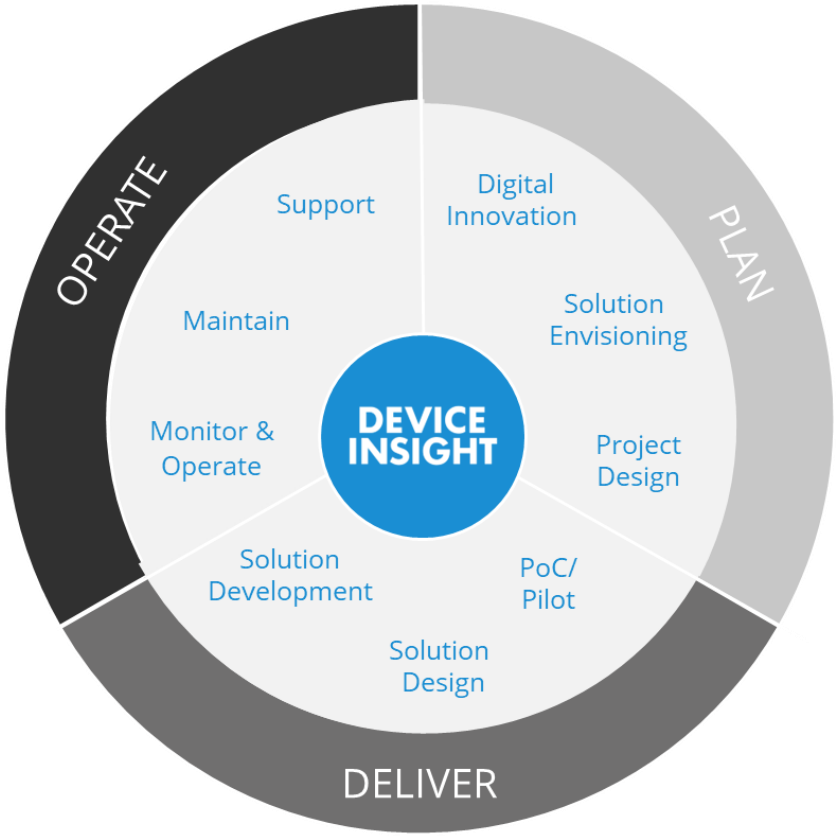
Device Insight Value Stack

Full-stack IoT & analytics competence



DEVICE INSIGHT

...combined with 360° Service



IoT Solution Approaches

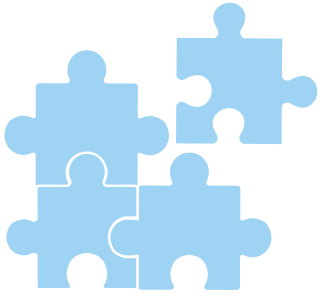
Combining the best of both worlds

DEVICE INSIGHT

Hyperscale Cloud PaaS

IoT for digital transformation

Device Insight Solutions

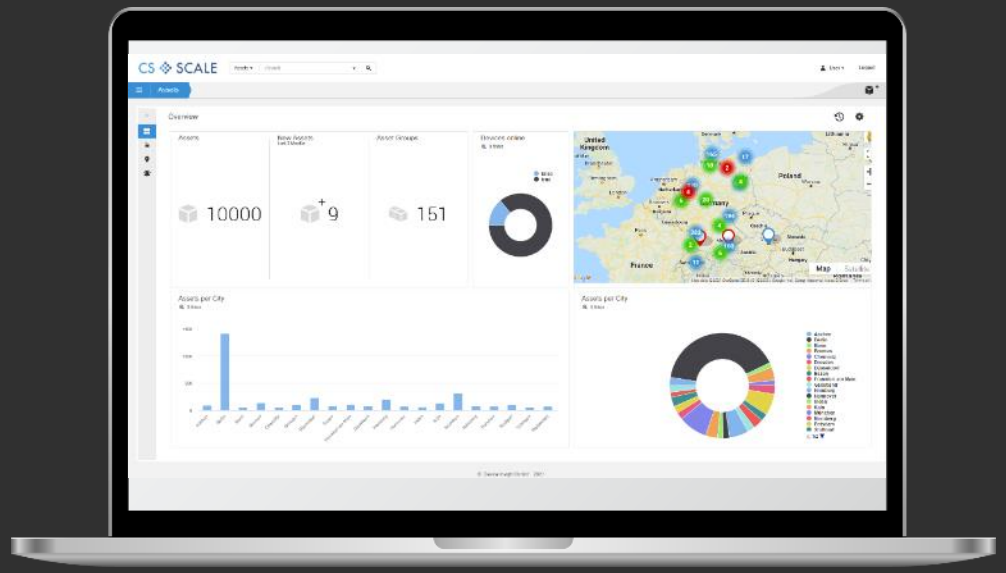


Combining the best of both worlds

Ready to Use IoT SaaS

IoT as a tool for a specific task

CENTERSIGHT scale IoT Framework



Adaptable. Use case specific customizations

Extensible. With Full REST API

Scalable. Natively built on Microsoft Azure

DEVICE INSIGHT

Enabling scalable & customized IoT portal solutions that integrate seamlessly

- **Asset Management & Search**
- **Data Modelling**
- **Digital Twin**
- **Time Series Analysis**
- **Asset & Asset Group Dashboards**
- **Multi-dimensional User & Access Management**
- **Device Management Integration**
- **Power BI Integration**
- **Alert Integration**
- **Notification Integration**
- **Enterprise Integration Bus**
- **Ready UI Framework**

IoT Application Framework with Native Azure Integration

Solutions built on Azure IoT to maximize flexibility and sustainability

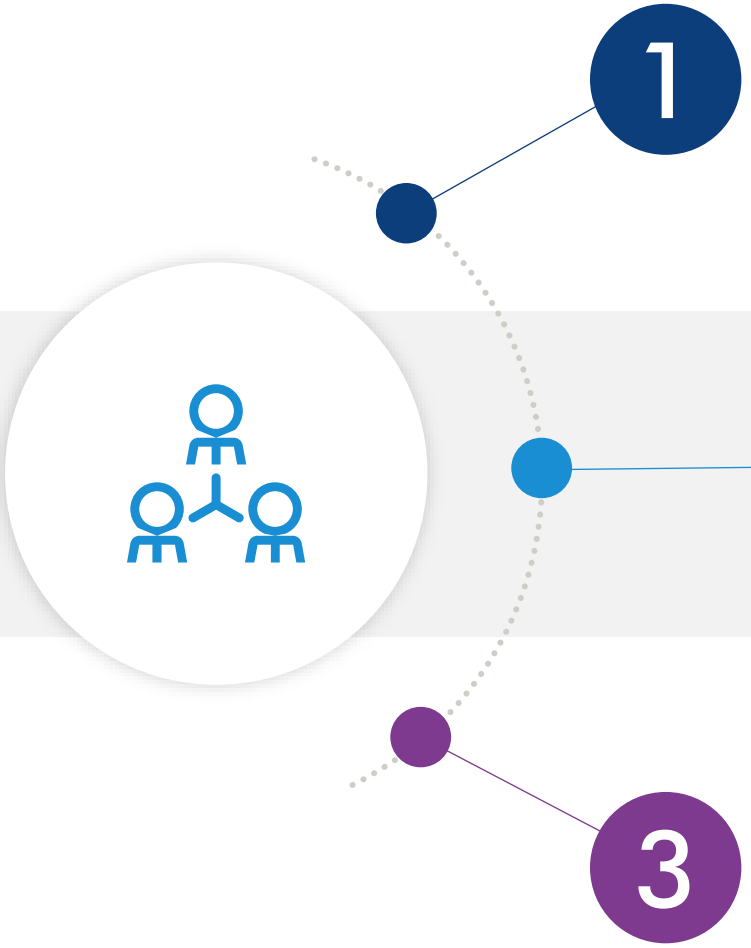
Flexible collaboration scenarios



Agile Device Insight Team

Development of applications and services by Device Insight, in close, agile coordination with customer

Joint Customer – Device Insight Team

Joint development of applications and services, with the advantage of sharing know-how, experience and technology optimally

Customer Application Engineering Teams

Customer AEs develop services and applications independently and without Device Insight in order to complete the IoT platform

Use cases and applications

Project examples

- Monitoring and Predictive Maintenance
- Value Chain Process Optimization
- Quality Assurance & Compliance
- Fleet and Equipment Management
- Customer Insights & Personalization
- New Development Business Models
- Fraud, Risk and Anomaly Management
- Real Time Demand Chain Management

DEVICE INSIGHT

We help you to realize IoT projects.

Transforming insights into actions.
