Customer-facing

NOD NETWORK ONE DISTRIBUTION

"Now we rely on Q-CSP with over 200 resellers onboarded, working and transacting our software solutions (based on subscription or perpetual) available in Q-CSP. Our resellers are traditional resellers, VAR's, MSP's, ISV's and soon we will cover new channels that will help our growth goals."

Win Results

We have Microsoft full CSP product line implemented, Kaspersky and other new vendors that are about to be onboarded into Q-CSP.

Quantum CSP platform has revolutionized the way we worked until that moment. As a SaaS Provider, we wanted a simple, user-friendly, fast-paced platform that would reduce our support time for our partners and clients in day-to-day operations.

The Quantum CSP platform is fully automated, giving our business the highest degree of reliability and adaptability.
