

# IQ3 CLOUD

Put the full Cloud potential to work – no work involved

**Do you believe your business will benefit from cloud services, but you struggle to get them implemented quickly, to build-up the required skills in your organization and to ensure compliant operations?**

## IQ3 CLOUD – Managed. Cloud. Solutions.

IQ3 CLOUD provides managed cloud-based solutions to serve virtually any department in your organization. Users can order and manage their solutions through a self-service portal with full cost control. Solutions are based on templates that adhere to compliance requirements of your industry, organization and IT.

## IQ3 CLOUD addresses the main challenges of modern IT solutions:

- Cost-effective cloud service management
- Comprehensive implementation of compliance and security requirements
- Best practice cloud solution architectures
- Management of cloud platform evolution and harnessing of new features and services

### Managed Cloud Services

- ✓ Protection against errors:
  - Simple, user-centric interfaces and processes – no technical skills required
  - Automated tasks and deployment of application services
- ✓ Service monitoring and management

**Cloud Service as a Service**

### Compliance and Governance

- ✓ Solution templates for finance, healthcare and other industries
- ✓ Continuous security and compliance monitoring
- ✓ Hardened through CIS SecureSuite

**Cloud Speed with Peace of Mind**

### Cloud Best Practices

- ✓ Proven solution architectures for various industries
- ✓ Cloud optimized, end-to-end, fully automated
- ✓ Cloud native approach that handles everything from lift and shift to microservices

**Cloud Potential without the Heavy Lifting**

# IQ3 CLOUD addresses business users and reduces the IT complexity dramatically
