Simplify Healthcare

Benefits1.ACA

Benefits1™ Platform Solutions for ACA Market to Deliver Qualified Health Plans

- Is your Qualified Health Plan (QHP) product configuration manual, repetitive, and error-prone?
- Are you struggling to keep up with CMS updates for ACA-compliant Qualified Health Plans?
- Does the manual generation and validation of QHP Plans and Benefits Templates (PBT) and member communication documents cause your teams to work long hours?
- Do you use third-party services/tools that provide minimal visibility or ability to absorb last-minute changes?

Current State of ACA Plan Management

| Multiple Sources of benefits data | Rekeying of benefits data | Error prone and non-compliant documents and submissions | Integration challenges with third-party applications |

Our Solution

Benefits1™.ACA — an ACA market-focused configuration of Benefits1™ Platform, is a fully automated and pre-configured ACA Plan management solution for Payers designed to simplify QHP PBT filing for multiple states and autogenerate SBCs, SOBs, Handbooks, and Booklets from a single source of truth and streamline workflows.

Challenge	Benefits1™.ACA Capability	Value
Benefits Data Management	Manage all benefits data under a single source of truth and eliminate rekeying of benefits data for various outputs.	Seamlessly collaborate and design accurate Small Group and Individual benefit plans from a single source of truth and easily manage filings for multiple states from one platform.
End-to-End Compliance	508-compliant document automation engine.	Achieve 100% compliance with any ACA plan materials, including QHP PBTs, SBCs, SOBs, Handbooks, and Booklets.

Power a connected benefits journey with integrations

Extend the capabilities of Benefits1™.ACA with a host of integrations to achieve end-to-end lifecycle management of your ACA health plans

.DataServices

Use relational database to drive reports and analytics on the source of truth data or communicate it in a model that is easily consumable by target systems.

.IntegrationHub

Use API and events to communicate data in a model that is easily consumable by target systems.

.Actuary

Accelerate actuarial inputs to benefit plan design changes and portfolio ideation.

.SuperUser.Studios

Empower superusers to maintain design, rules, and workflow configurations while also establishing governance.

.Sales

Enable sales and sales ops to customize benefits for small groups via seamless integration with a sales CRM system.

Service1™

Deliver accurate and complete answers to members, providers, employer groups, and brokers/agents for benefit inquiries.

Claims1™

Enable automated claims configuration, code set level configuration of benefits, and testing to support claims adjudication.

Experience1™

Automate dynamic content generation and stream accurate, compliant, and consistent benefits data across the enterprise.

Benefits1™.ACA enables Payers to deliver a connected benefits journey for their Small Group and Individual health plans.

Customer Testimonials

" I wish we had started with Benefits1™.ACA sooner. We have been manually creating our QHP submissions, which is a huge effort, with several opportunities for data quality issues. Simplify Healthcare has automated the creation of the QHP requirements that not only reduces our efforts, but more importantly, also reduces our risk of errors.

– Vice President, Commercial Plans

" Benefits1™.ACA makes it super-easy to manage the specific benefit requirements of QHPs. With its out-of-the-box functionality and document generation capability, our team was able to generate SBCs and SOBs on time without any last-minute hassle. No doubt, it makes the benefit build processes more simple, efficient, and error-free.

– Director, Product Development

" Benefits1™.ACA has accelerated our SBC and SOB generation processes and reduced review cycles. We are seeing operational improvements in multiple functional areas. For us, Simplify Healthcare is not just a software provider but a partner for the long-term strategy and a key part of our business ecosystem.

– Manager, Configuration Unit
