

Time Tracking and Your Other Business-Critical Systems

Easy for employees. Powerful for complex accounting needs.

Journyx delivers solutions that enable organizations to track their time. Integration with other key business systems, such as ERP or payroll solutions, along with business analytics tools, is key to reducing costs and streamlining processes to ensure that your data is orchestrated effectively, and your business runs in an optimal fashion.

Integrations with top ERP, HR/Payroll, and Business Intelligence solutions

Journyx is committed to delivering the easiest integrations in the time tracking industry. This focus ensures a feature-rich, seamless integration with your ERP or payroll provider of choice.

Journyx has deep experience in the Microsoft Dynamics ecosystem, and recently added Sage Intacct, Oracle NetSuite, Primo Payday, and Greenshades to our list of integrated systems/partners.
