# Microsoft Fabric Implementation

Cloud Services

Accelerate your data potential with Microsoft Fabric

Power your business decisions with cloud-scale analytics,
unlock the business value and achieve more by unifying your hybrid and multi-cloud data estates for faster, connected intelligence.
Microsoft Fabric enables you to host all your analytics workloads in a SaaS-based, lake-first solution–eliminating organizational siloes.

1 Unify your enterprise data estate for analytics

3 Build fit-for-purpose analytics models

2 Responsibly democratize analytics with data governance

4 Scale transformative analytics applications

Lake-centric and open | Role-specific tools | Empower every Microsoft 365 user | Persistent governance and security

Data Integration	Data Engineering	Data Warehouse	Data Science	Real Time Analytics	Business Intelligence
Data Factory	Synapse	Synapse	Synapse	Synapse	Power BI

Unified data foundation OneLake

Persistent data governance and security Purview
