

Microsoft Copilot for Security: 2-day Workshop

Join us for a 2-day workshop to learn how Microsoft Copilot for Security can assist you and your organization in efficiently and effectively navigating your security operations. Explore how this powerful tool can elevate and enhance your security operations, optimize incident response, and empower your security teams.

Microsoft Copilot for Security is a pioneering security product created with the goal of enabling security analysts to operate at the pace and scope of AI. By leveraging skills, threat intelligence, and contextual awareness, it aids security teams in rapidly and confidently navigating through their security operations. This innovative solution provides security posture management, incident response, and security reporting, merging a cutting-edge large language model (LLM) with a security-specific model from Microsoft. Informed by Microsoft's distinctive global threat intelligence and over 65 trillion daily signals, it delivers unparalleled security capabilities.
