Mainframe Modernization - Rapid Assessment

Eviden's Mainframe Modernization Services helps enterprises identify and understand, plan, and accelerate their mainframe migration to the cloud.

What We Offer

- A multi-dimensional assessment of mainframe application to determine business and technical parameters
- Tool-driven analysis of application source Inventory
- Understand application /data dependencies and interfaces
- Create a modernization roadmap, high-level project plan, and estimates for mainframe modernization

Mainframe Modernization - Rapid Assessment

How it Works

Gather Data

- Inventory components
- MIPS consumption
- SLAs, Job Schedules
- Questionnaires

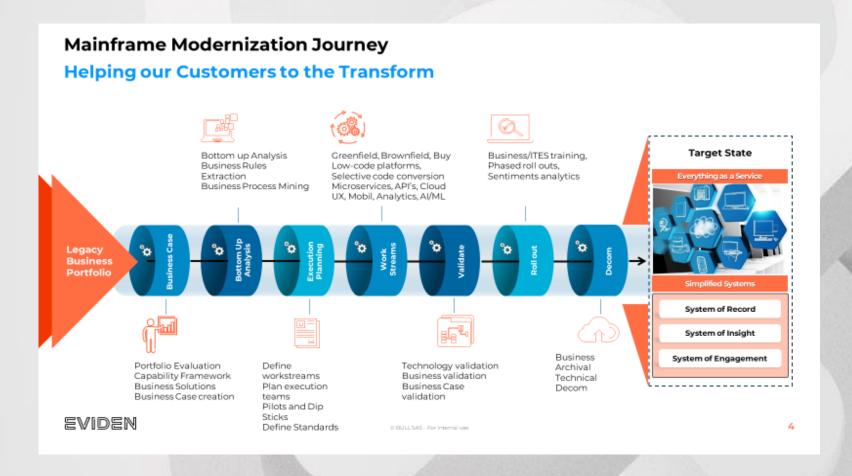

Analysis with Exit Legacy

- Volumetric & Complexity
- Maintainability Analysis
- Technical debt
- Interface analysis

Define Strategy

- Risk analysis
- 4R analysis
- Future needs & vision

Execution Strategies and Solutions

Mainframe Modernization - Rapid Assessment

Customer Outcomes

838% increased user base

30% improved business efficiency

40% Faster Migration

Customer Success

Company: Leading Global Commercial P&C Carrier

Solution:

- Web-based seven-tier architecture using a sophisticated tech platform
- Integrated workflow management and configurable alerts/notifications mechanism
- A new application was tuned to handle data migrated from the legacy system

Outcome:

- 838% increased user base
- 50% Automation
- 53% Reduced Maintenance Cost.

Company: Leading 401K Provider

Solution:

- Application modernization from obsolete legacy technology to the latest dot net with Azure PaaS
- Adopted cloud factory model led to repeatable higher migration efficiencies and standardization
- Legacy infrastructure decommissioned, resulting in a 70% reduction in cost

Outcome:

- 50% faster implementation
- 30% improved business efficiency
- 70% reduced infrastructure TCO

Company: Leading Financial Services Company

Solution:

- Visual Basic Upgrade Companion (VBUC) tool from Mobilze.Net (erstwhile ArtinSoft)
- Replaced all the third-party controls/DLLs (e.g. -Grid, Calendar, ResizeKite, QPro32) with .NET native controls/implementation
- Replaced SQL Server xp_cmdshell utility with .NET native implementation.

Outcome:

- 40% Faster Migration
- 50% Automation
- Zero Impact on Business Processes

Eviden is your preferred digital, cloud, data, and security partner to help you realize your digital future. Together, Microsoft and Eviden are expanding the possibilities of data and technology, now and for generations to come.
