LLUMIN CMMS+

ERP AND BUSINESS SYSTEMS INTEGRATION

What if you could optimize communication and collaboration inside your organization with the industry's best maintenance and asset performance management software? What if that solution also **fully** integrated with your existing ERP or other business applications?

IT'S ALL POSSIBLE WITH LLUMIN CMMS+.

We built CMMS+ with an architecture that offers unparalleled integration capabilities—allowing you to streamline operations, improve communication, and maximize efficiencies across your organization.

- Eliminate data entry errors
- Simplify vendor management
- Accelerate information collaboration
- Improve production efficiencies
- Enable full procurement control

With LLumin CMMS+, you get an industry leading solution for asset performance and maintenance management—and the seamless information exchange usually associated with ERP suites.

CMMS+ integrates with nearly all-industry standard ERP and financial solution offerings, from SAP to QuickBooks. It allows you to eliminate data silos, simplify workflows, and enable collaborative decision-making.
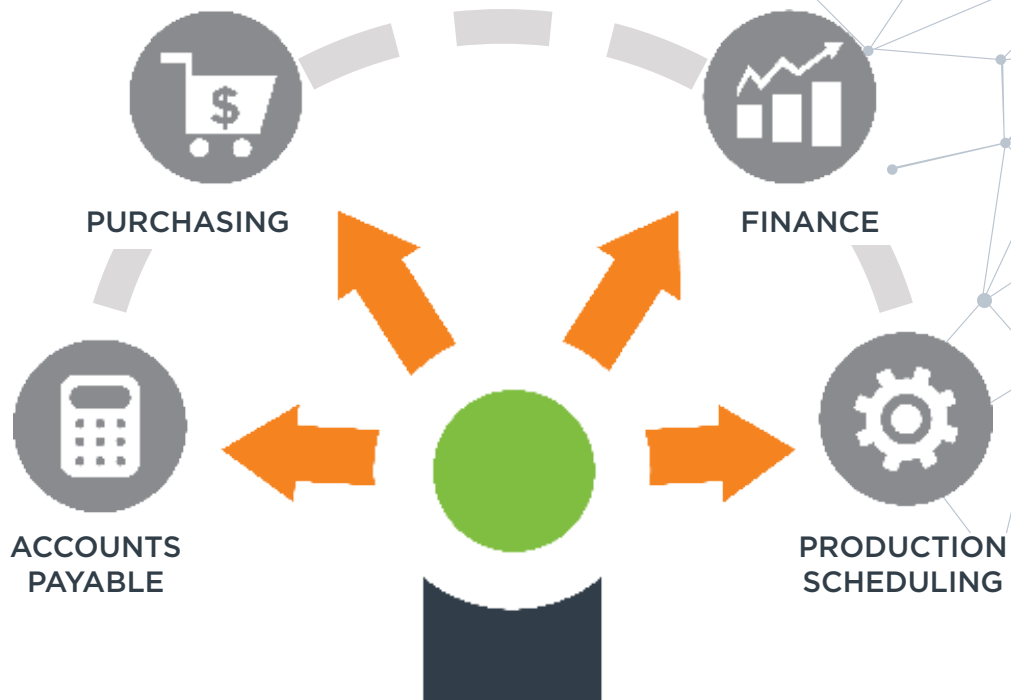

"As a regulated industry, transaction traceability, both in terms of dollars spent and approvals granted, is critical. LLumin CMMS+ and its seamless integration with our ERP suite, has met our requirements handily."
