

LLumin CMMS+

ASSET AND INFRASTRUCTURE MANAGEMENT

Imagine being able to automatically track the location and status of all your valued assets: your infrastructure, machinery, and equipment.

LLUMIN CMMS+ MAKES IT POSSIBLE.

When you have full visibility into your assets, it becomes easier to optimize their performance. **LLumin CMMS+** keeps you in the know, allowing you to eliminate downtime, mitigate risk, and ensure compliance.

Location

Value and cost of ownership

Attributes and characteristics

Status and condition

Criticality to operations

Potential risks

“With LLumin CMMS+, if an auditor asks you what your critical assets are specific to food safety, it's a click of the mouse really, and you can bring them up instantly.”

Sr. Reliability Engineer
Matura Valley Milk

With LLumin CMMS+ at your fingertips, you'll always know how your assets are performing and all the information your team needs to be proactive. And when issues do arise, CMMS+ will enable you to respond quickly, reducing mean time to repair and elevating asset uptimes.

Bottom line? LLumin CMMS+ helps you **make smarter, more informed decisions** about your assets with a single click. That's why it's used by tens of thousands of users in every market segment around the world.
