About Power Platform QuickStart:

Microsoft Power Apps is a suite of apps, services, connectors, and data platforms providing and enabling no-code/low-code rapid application development for building custom apps. Apps built using Power Apps provide **rich business logic** and **workflow capabilities to transform manual business tasks** into **digital, automated processes**. They also have a responsive design and can run seamlessly on the web or on mobile devices, anywhere/anytime.

Attend this **immersive, hands-on session** to unlock the power and value of Power Apps for your organization and begin developing with confidence. You'll receive expert overviews of Power Apps functionality and governance. You'll also experience in-depth instruction on how to develop applications quickly, efficiently, and securely for browsers and mobile devices.

With QuickStart, You Will:

Participate in this Expert-led, Hands-on Power Platform-in-a-Day Workshop, **and realize:**
- Overview of business application platform
- Key industry use cases
- Presentation and labs:
- Power Apps functionality
- Dataverse functionality
- Power Apps model-driven functionality
- Power Automate functionality

Plan and develop:
- Plan and design around scenario apps and Power Automate
- Collaborate with experts and develop PoC scenario apps and Power Automate

Agenda

Day 1 — Hands-on App-in-a-Day Workshop

Day 2 — Planning and development
- Map and design around scenario apps and Power Automate
- Collaborative development of PoC scenario apps and Power Automate

Days 3–5 — Development and governance
- Collaborative development of PoC scenario apps and Power Automate
- CoE and governance

Outcomes

- Trains your staff on Power Apps and Power Automate to **optimize user experience and outcomes**

- Provides discovery and initial design of a **PoC app/flow scenario**

- Collaboratively builds up to **two real-world business scenarios**

- Introduces and reviews **Power Platform governance**

- **Creates backlog and estimation** for completion of a production-ready app
