

Plan Heal

Diabetes Journey Assistant

Scales patient Diabetes health monitoring for better access and risk detection

Plan Heal is a
Microsoft
for Startups
Company!

The Problem

High numbers of Diabetes patient incidences that go misdiagnosed, undiagnosed, or late-detected.

Diabetes Care Costs are Skyrocketing

Diabetes is the eighth leading cause of death in the United States— total estimated \$327 billion in medical costs and lost work and wages.

Source: Centers for Disease Control- CDC

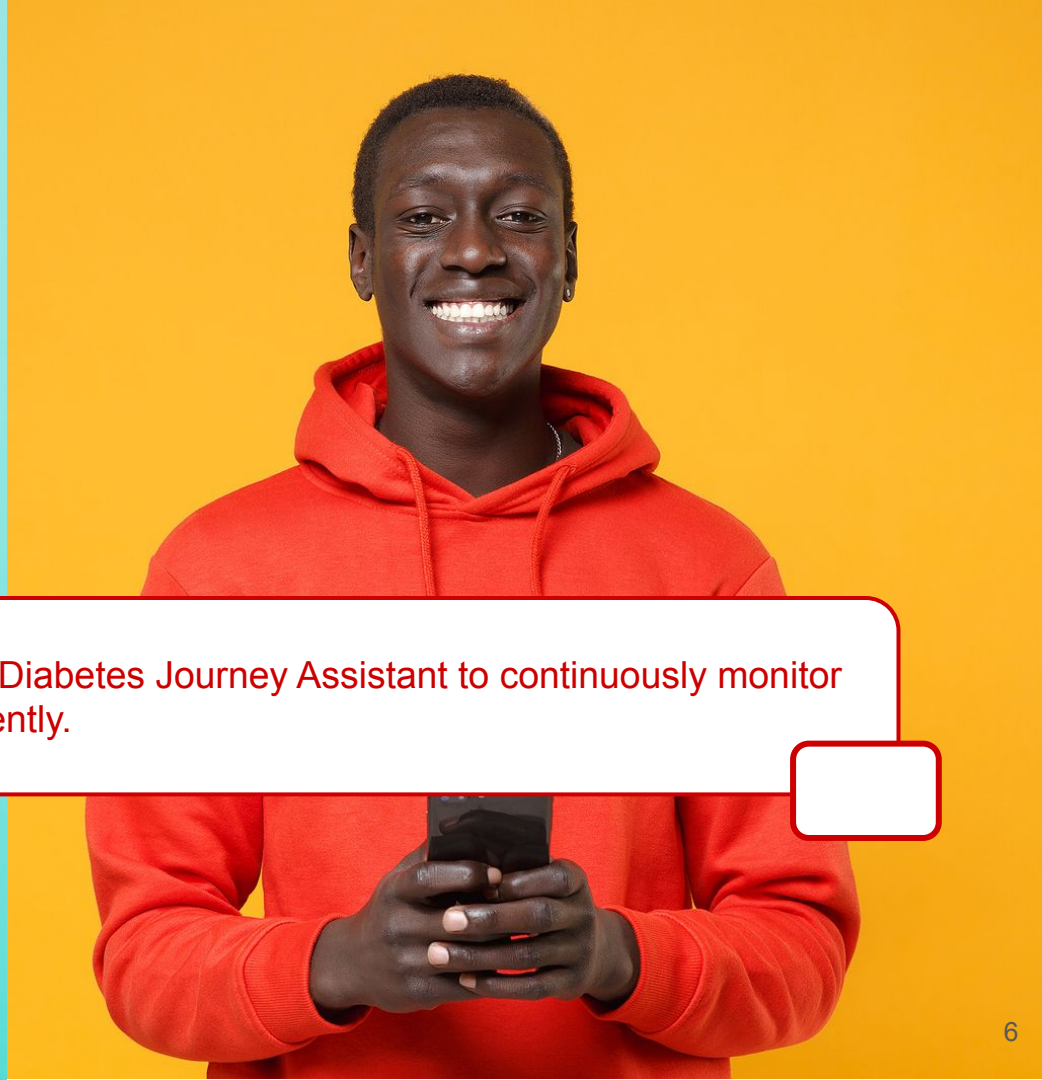

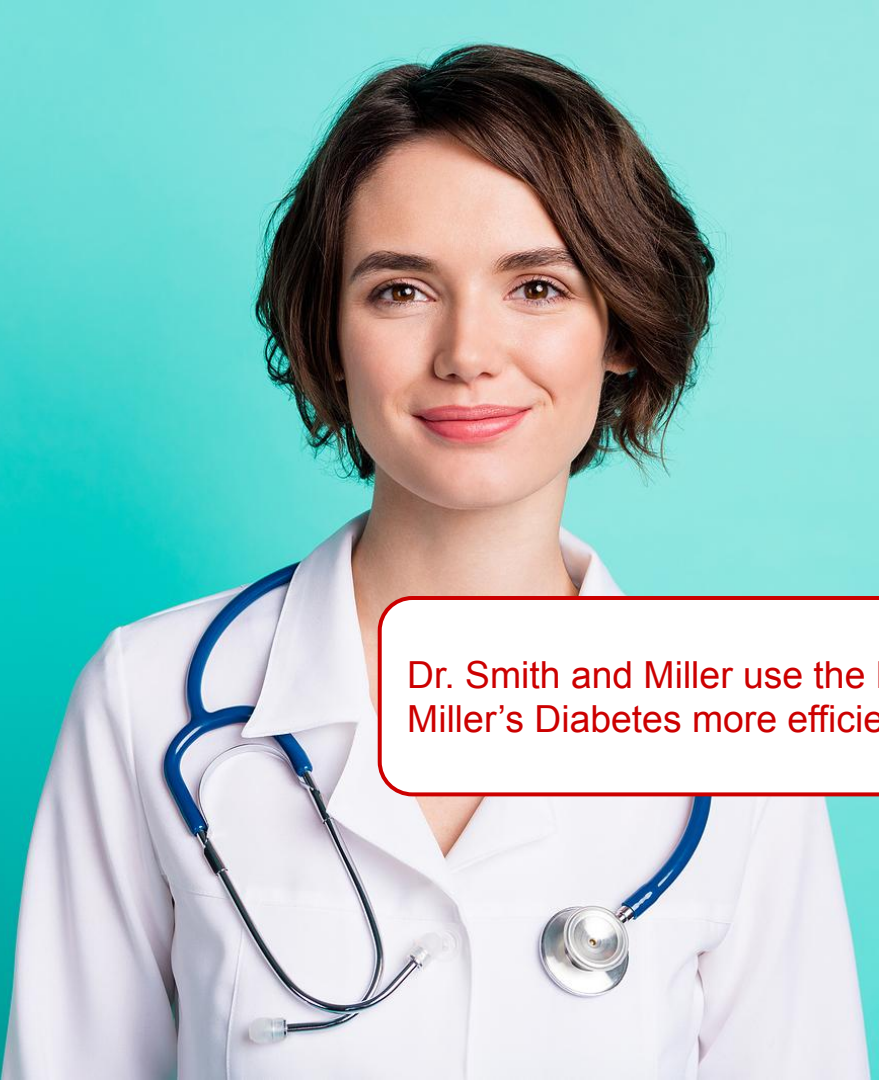

Product Solution

The Diabetes Journey Assistant is a Smart Health Bot that can more efficiently scale patient monitoring and care guidance.

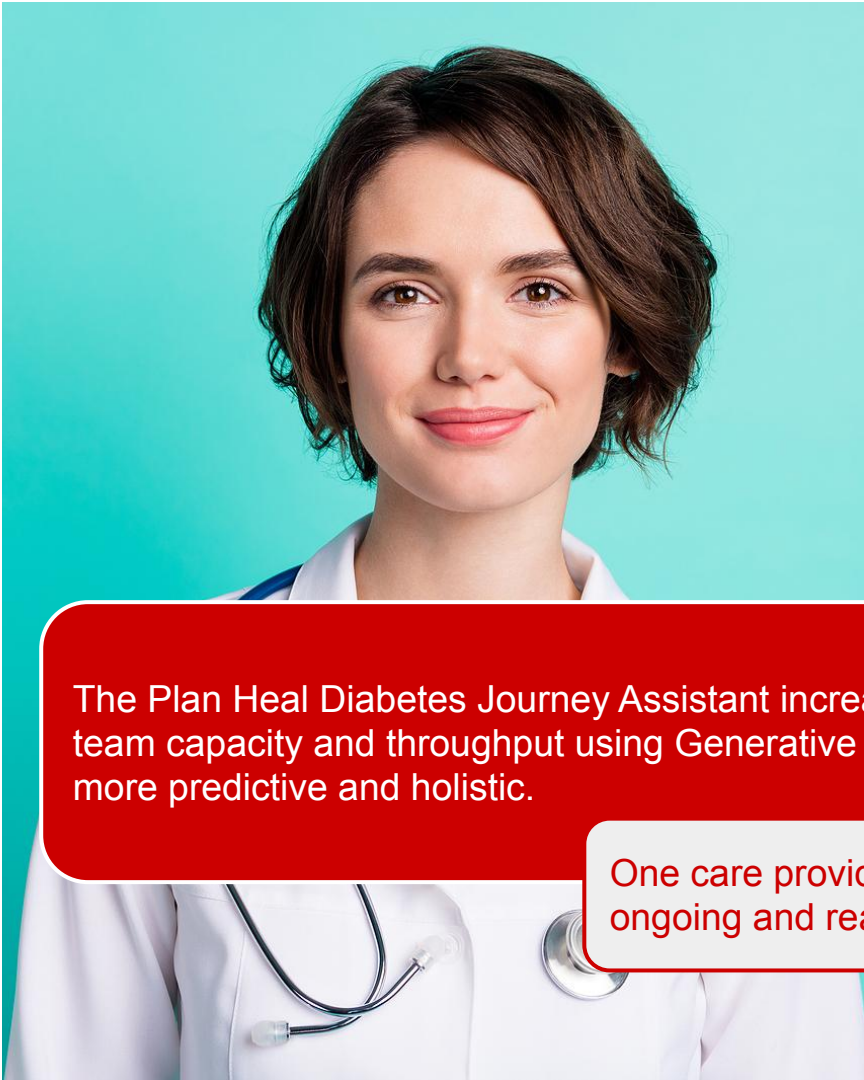

How Diabetes Journey Assistant Works

Dr. Smith and Miller use the Diabetes Journey Assistant to continuously monitor Miller's Diabetes more efficiently.

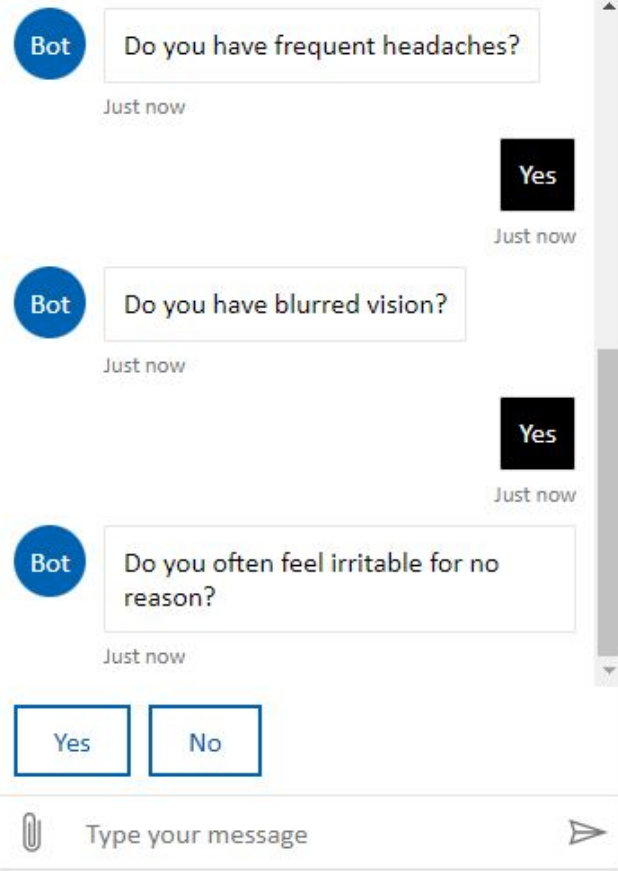

The Plan Heal Diabetes Journey Assistant increase care team capacity and throughput using Generative AI that's more predictive and holistic.

One care provider now has more patient care capacity with ongoing and real-time patient care analytics.

Miller can now increase his health literacy and better manage and report his health in a more holistic way.

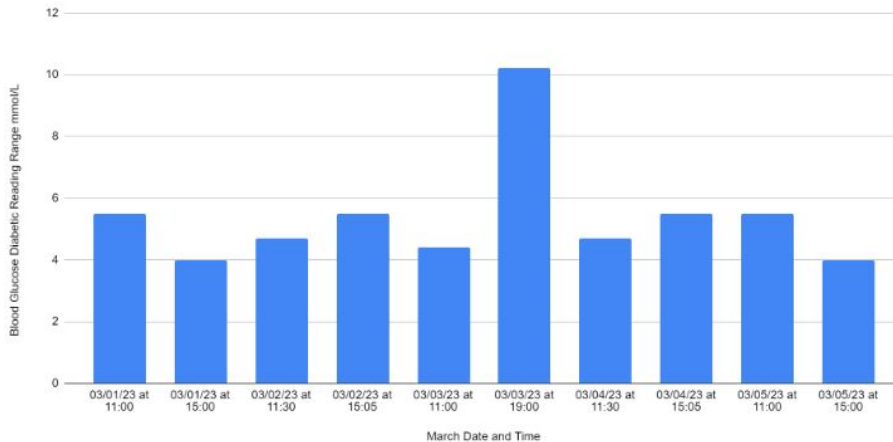

Dr. Smith can now access analytics via the EHR that are more-

Actionable, Predictive, Realtime, and Holistic to support Miller's unique needs.
