

# HAFN IT MICROSOFT 365 LANDING ZONE –PRODUCTIVITY STARTS HERE

## HAFN IT SOLUTION MICROSOFT 365 LANDING ZONE

With the HAFN IT Microsoft 365 Landing Zone, we give you an easy, fast and secure way into the Microsoft 365 world. In doing so, we draw on proven recommendations from Microsoft and comprehensive experience to create a solid foundation for your Microsoft 365 environment.

### STANDARDIZED AND AUTOMATED WITH HAFN IT TO THE CLOUD

By means of a standardized procedure, we look at your actual situation and determine your individual functional requirements. After that, we will together with you to prioritise the next steps.

First, you can configure the Microsoft 365 environment and connect to your infrastructure to create a secure and flexible landing zone.

This is followed by the migration of existing data such as login information, e-mail mailboxes, or file assets. We'll also help you get them up and running in the Microsoft 365 Cloud.

After data migration, we take over the operation of the platform and ensure optimal service. In addition, we ensure the appropriate configuration with our change and lifecycle management.

### THE 5 PILLARS OF OUR MANAGED SERVICE

- 1. Governance:** HAFN IT Managed Services are designed to optimally support your specific business structures and business goals.
- 2. Security:** HAFN IT Managed Services provide you with the highest possible security of all operated systems and cloud services.
- 3. Compliance:** HAFN IT Managed Services help you meet legal and regulatory requirements as well as self-set standards.
- 4. Cost:** HAFN IT Managed Services keep an eye on your cloud costs and always strive for the solution with the best price-performance ratio for you.
- 5. Change:** HAFN Managed Services keep track, are up to date with all new features in the Microsoft Cosmos and give you concrete recommendations.

## YOUR ADVANTAGES

### STANDARDS

Whether small and medium-sized enterprises or large corporations – the same requirements apply to all companies for IT systems. This applies in particular to the issues of data protection and security. Medium-sized enterprises naturally have significantly less budget and resources available for this purpose.

HafN IT offers Microsoft 365 Landing Zone standards with its solution to fill these gaps and enables customization when your business requires it. This way, you can achieve an ENTERPRISE-level IT environment with little effort.

### CHANGE & LIFECYCLE MANAGEMENT

With the HAFN IT Solution Microsoft 365 Landing Zone, we always keep an eye on all developments in the areas of function, technology, data protection and security, ensuring that you are always up-to-date. Through targeted onboarding users and transparent community management, we provide a framework for basic knowledge, best practices and curated content. Your users will quickly find their way around the new environment and feel good.

### TRANSPARENCY

Whether it's project-based delivery or ongoing managed service, we offer transparency in all areas. Daily costs, an overview of all ongoing operations and a clear definition of the guaranteed services can be found in your HAFN IT customer portal.

### MANAGED SERVICES

Even after the setup, we will not leave you alone. We offer you a flexible managed service tailored to your needs to be there for you even after deployment.

For the entire HAFN IT Solution Microsoft 365 Landing Zone and the modules based on it, we offer you continuous service in the areas of governance, security, compliance, cost and change.
