

## Award-winning telephony for your business

Operator Connect enables you to conveniently and effortlessly deploy Microsoft Teams Phone as your cloud based telephone system

SIMPLE PRICING

DEPLOY QUICKLY

COMPETITIVE VOICE PLANS

RESILIENCE

### Operator Connect is best if you:

Need to deploy Microsoft Teams Voice rapidly

Don't have Power Shell knowledge

Have a geographically distributed workforce

Want to fully migrate to the cloud

Need a direct-to-carrier relationship

Prefer number self-servicing

## Key Benefits

**Port numbers** : from your existing operator.

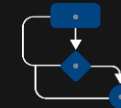

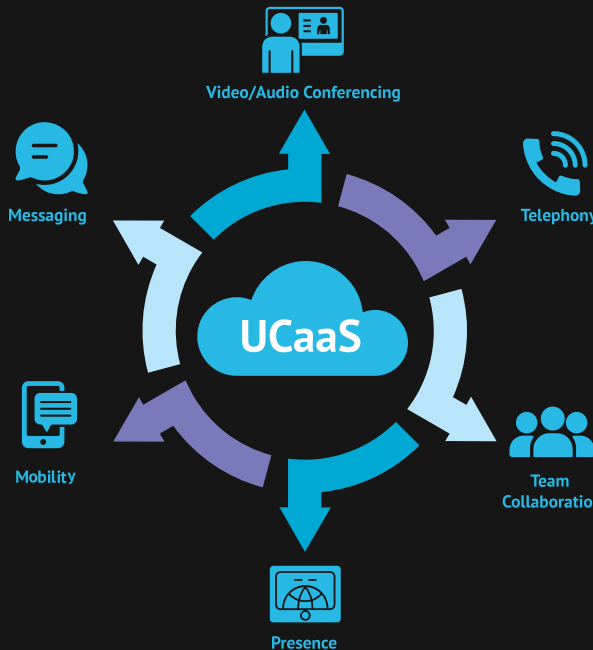

**Domestic and International Voice Plans available**: for high quality, low latency conversations.

**Purchase and assign**: numbers to your entire team from one familiar interface.

**Self-service**: management of Phone Numbers and users through the Teams Admin Portal

**Auto attendants**: Direct customer calls through menu options to operators. Customize personal messages for after-hours and holidays.

**Business Intelligence**: use analytics to integrate and prioritize agents based on skill set to keep your customer's wait time to a minimum.

**Clear & reliable calls** - Enjoy HD voice quality with geo-redundant data centers.

## A modern calling solution for the workplace of the future

### Future Proof

Modernize your team and evolve your workforce. Seamlessly add new features and functionality at scale and as your business grows.
