

SCHNEIDER DOWNS DIGITAL – Business Central 4 Week Optimization

My current situation....

- ✗ Live on Dynamics 365 Business Central or NAV, but lacking efficiencies
- ✗ Not using all of the software we are paying for
- ✗ Punch-list of changes & projects
- ✗ “We don’t know what we don’t know”

I Need....

- ✓ Optimized use of Business Central
- ✓ To implement BC across more of the business
- ✓ Confidence in my reporting and system configuration
- ✓ Someone who can cross the issues and defects off the list for good

Week 1: Discover and Assess

customizations, data structure, architecture and integrations, key configurations

Week 2: Prioritize, Plan, and remediate Quick Wins

to start getting where you deserve to be and populate your optimization backlog

Weeks 3-4: Issue Remediation – Sprint 1

Prioritize and resolve process, configuration, and data issues

Evolve

With additional sprints and Organizational Change Management

Why SD Digital?

- With our experiences, we get (and have lived) your requirements
- We only send the “A” team that will guide your implementation and execute flawlessly
- Our definition of done is based on your expectations being met, not a project plan
- BC/NAV Partner since 2009, 50+ implementations across a variety industries and over 200 customizations
- Proven track-record of client satisfaction
