AVERTIUM®

CORPORATE OVERVIEW

2024

A STRONGER, MORE PROGRAMMATIC APPROACH TO CYBERSECURITY

| ASSESS, DESIGN, PROTECT.

**Avertium** is a cyber fusion company with a programmatic approach to measurable cyber maturity outcomes. Organizations turn to Avertium for end-to-end cybersecurity solutions that attack the chaos of the cybersecurity landscape with context. Avertium's methodology is as comprehensive as it is strategic. Our three-step approach is interconnected and delivered with seamless collaboration. We help define your journey, so that we can quickly **Assess**, **Design**, and **Protect** alongside you. *Show no weakness®*.

| OUTCOMES

Avertium's holistic approach **delivers everything you need** to align security with your business AND the threat landscape.

More Secure
Cyber maturity produces measurably safer organizations that prevent risk and adapt to emerging threats.

More Compliant
Avertium customers meet their compliance requirements which reduces loss and turns compliance into a competitive advantage.

More ROI
Fused cybersecurity allows internal resources to focus on priorities, leverages external expertise for complete protection, and optimizes capital investment.

SERVICES

GOVERNANCE, RISK, + COMPLIANCE (GRC)

Utilizing a risk-based-approach, develop security policies and procedures that adhere to regulatory and compliance mandates, achieve various certifications, and mitigate risk by enhancing cyber maturity.

- Audit + Compliance
- Business + Risk

CONTINOUS THREAT EXPOSURE MANAGEMENT (CTEM)

Design, implement, and test a comprehensive security program that includes migration, integration, setup, and optimization of security operations based on your attack surface and risk mitigation priorities.

- Acceleration + Optimization
- Testing + Evaluation

THREAT DETECTION + RESPONSE (TDC)

Make your technology work for you and not against you. Gain extensive, 24/7/365 visibility of threats at the source, surpassing traditional monitoring, while swiftly triaging and remediating security incidents.

- Fusion MXDR
- Managed Detection + Response (MDR)
