

# Intelligent Webinars with Microsoft Teams Premium

## About Magenium

We are a Microsoft-certified Cloud Solutions partner with designations for Modern Work and Advanced Specializations in both Meetings and Meeting Rooms for Microsoft Teams as well as Calling for Microsoft Teams. In addition to our Microsoft Teams skillset, we have even built out a broadcast studio in our office utilizing Teams Premium for webinars.

## About This Workshop

Microsoft Teams Premium licensing enables some incredible new webinar functions for your users that will greatly improve how your organization appears to customers. These include but are not limited to:

- Customized email templates to registrants and attendees
- Real-time language translations & configuration
- Real-time event call monitoring and insights

Our workshop will explore the ways your teams currently utilize Webinars as a promotion strategy and deliver a session to help you envision what is possible.
