

Realizing the Value of Machine Health at Scale

THE WORLD'S LARGEST INDUSTRIAL ENTERPRISES are realizing their digitization objectives at scale with Augury's machine health solution. Through prescriptive insights and Augury's emphasis on adoption, initial programs at Fortune 500 companies are generating levels of ROI that elicit cross-company buy-in and quick global expansions. With Augury's white glove services and dedicated project management team, these customers are able to execute on global roll-outs faster than ever before.
