

# Licensing Strategy Engagement

## Do you know what Microsoft licensing your business really needs?

Whether you've been approached by Microsoft for an audit or simply want to conduct a self-assessment, our Licensing Strategy Engagement is a great solution for understanding your real licensing needs. **You may be eligible for a free, one day licensing assessment customized for your business.**

### Find...

Under/over licensed Microsoft software prior to your enterprise agreement expiration or renewal.

### Understand...

Your total license requirements to see if changing to a more flexible licensing model makes sense for your organization.

### Centralize...

The licenses you currently own under a single agreement.

### Plan...

For upcoming licensing requirements to accommodate either growth or attrition.

### Purchase...

The licenses you really need, knowing that you have the flexibility to make changes to license counts on your schedule, not Microsoft's schedule.
