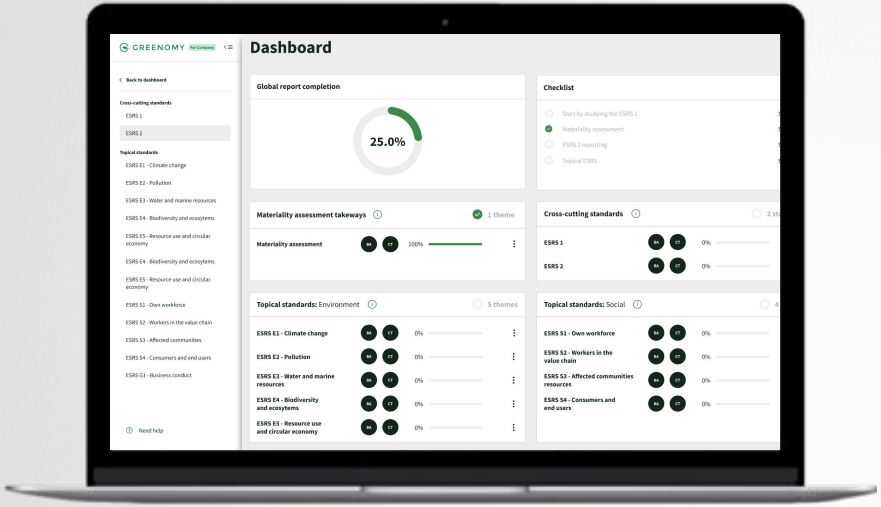
CDP™ ACCREDITED PROVIDER 2023

THE GREENOMY SAAS FOR CSRD/TAXONOMY REPORTING
DIGITIZES, AUTOMATES AND SIMPLIFIES YOUR ESG REPORTING PROCESS



80% SAVINGS ON AN IN-HOUSE BUILD

ALWAYS UP TO DATE WITH LATEST LEGISLATION

7x FASTER REPORTING PROCESS

A-LIGN ISO 27701 CERTIFIED · A-LIGN ISO 27001 CERTIFIED · A-LIGN SOC 2 · CDP ACCREDITED PROVIDER 2023

SIMPLIFIED AND UP-TO-DATE REGULATIONS

We maintain the entire EU Taxonomy and CSRD's ESRS in a simple web interface filtering the relevant information, guiding you each step of the way and providing you immediate ad-hoc support.

WORKFLOW TO MANAGE TEAM INTERACTIONS

Easily collaborate directly in the tool by assigning tasks to internal or external users and by tracking the progress of all activities.

1-CLICK DISCLOSURE TO SELECTED EXTERNAL STAKEHOLDERS

Selectively provide access to regulators, investors, banks, auditors to partial or full reports in 1-click.

AUTOMATION TO PRE-FILL REPORTS

Automate the completion of your reports by integrating the Greenomy Portal to your internal and external data sources (structured or unstructured), and by leveraging our AI modules to read your documents and extract the relevant data points.

THE SAFEST PLACE TO STORE & SHARE YOUR ESG DATA

Greenomy applies the highest standards of data protection and privacy. We are ISO 27001 & 27701 certified and aligned with SOC2.

CSRD MODULE

EFFICIENTLY MANAGE YOUR ESRS REPORTING ACROSS YOUR ORGANISATION

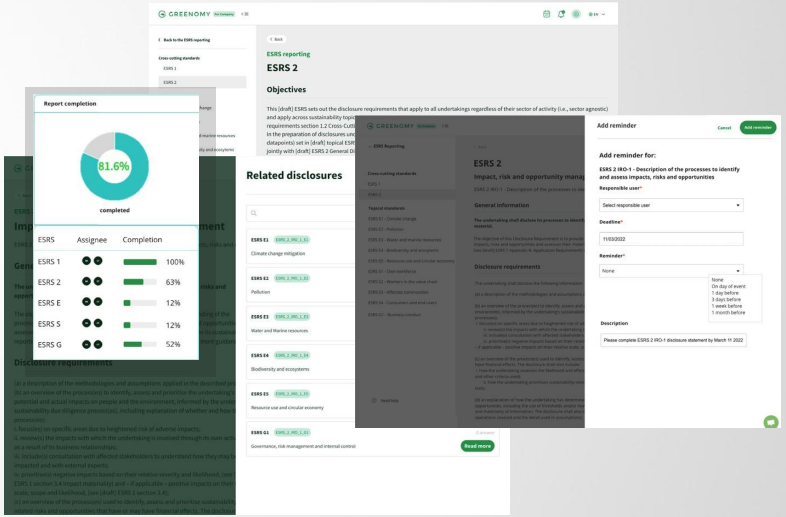
The CSRD mandates large companies to report in compliance with European Sustainability Reporting Standards (ESRS). There are **12 ESRS: 2 cross-cutting** and **10 topical standards** that include **~1,200 data points**. Companies will have to apply the new rules for the first time in 2025 based on their 2024 data.

KEY BENEFITS

- Navigates through the ESRS that matter for your organization
- Uniquely identifies the ~1,200 data points included in the ESRS
- Facilitates navigation between disclosure requirements
- Streamlines team collaboration and data collection
- Automates reporting and data sharing across your organization
- Simplifies the audit readiness process

KEY FEATURES

- Filters ESRS requirements based on your materiality assessment results
- Enables the plug-in of internal documents to support a semi-automated disclosure.
- Navigates the ESRS' interconnection and allows for the reuse of relevant answers' sections
- Assigns key stakeholders across the organization to specific tasks
- Monitors data collection and ensures completion of your CSRD report
- Reviews key metrics and targets of the ESRS along with their underlying data



> ***Data entry on the CSRD module is straightforward and user-friendly!***

EU TAXONOMY MODULE

DESIGNED TO STREAMLINE YOUR EU TAXONOMY SCREENING SCREENING

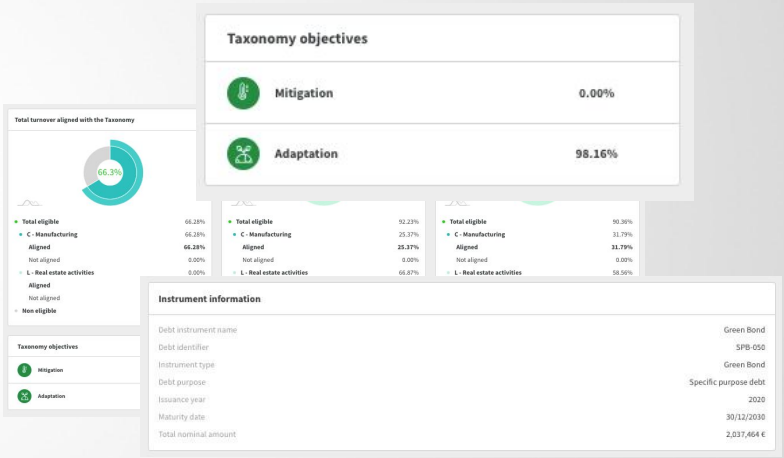
Our EU Taxonomy solution is designed to help you easily evaluate your **entity and debt instruments' alignment with the EU Taxonomy**. The tool allows you to seamlessly plug your internal data, and guide you, thanks to helpful documentation and guidance, in your sustainable reporting journey. Moreover, by remaining up-to-date with the latest legislative changes, it supports the automatic production of your EU Taxonomy compliant report in a cost and time efficient manner.

KEY BENEFITS

- Digitised the entire EU Taxonomy technical screening criteria
- Facilitated internal team engagement and customized data plug-in
- Supports your team with helpful documentation and best practices
- Automates regulatory compliant report generation
- Provides a solid foundation for a transition plan

KEY FEATURES

- Provides continuous monitoring and updates based on legislative changes
- Offers ERP & data connectors for seamless integration and role-based task management
- Includes a proprietary resource hub that centralizes key intelligence and best practices
- Enables progress tracking, dashboarding, and generation of your EU Taxonomy reports
- Provides peer benchmarking and performance analysis



> ***"The Greenomy solution is easy to use. The step-by-step user guide is effective in generating a complete report in line with investors' expectations and the EU Taxonomy"***

Jérôme Chosson, Head of Corporate & Project Finance at Akuo Energy
