Unlocking Unified Management Across Environments

Azure Arc serves as a bridge, extending Azure's capabilities to an organizations with multi-cloud, on-premises, and edge resources. With Azure Arc, organizations can seamlessly integrate these resources into Azure Resource Manager, enabling unified management, monitoring, and security across its entire environment. Azure Arc empowers organizations to leverage Azure's management services for monitoring, securing, and updating servers, databases, Kubernetes clusters, and virtual machines, just as if they were hosted directly in Azure. Plus, it allows the utilization of familiar Azure services and management tools across various resource locations.

Discover the Power of Azure Arc

- **Unified Control and Compliance:** Ensure regulatory adherence and security compliance effortlessly across resources, no matter where they reside, simplifying standards and legal obligations.

- **Enhanced Monitoring:** Attain a unified perspective of all connected resources for quicker issue identification and resolution. Monitor functionality, performance, and usage seamlessly.

- **Multi-Cloud Agility:** Distribute workloads across diverse cloud environments while maintaining consistent management and control.

Customer Benefits

- Consistent Management Across Environments
- Centralized Governance & Compliance
- Unified Monitoring & Insights
- Enhanced Flexibility
- Modernized Apps & Development
- Simplified Data Handling
- Optimized Costs
- Enhanced Security
- Seamless Hybrid Cloud Adoption
- Boosted Innovation & Agility

Who Can Benefit from Azure Arc?

- Enterprises with complex Multi-Cloud/Hybrid Cloud infrastructures seeking centralized Security & Operations management.
- Industries facing stringent regulatory compliance demands.
- Organizations adopting DevOps and cloud-native technologies.
- Cost-conscious businesses.
- Innovative, agile enterprises.

Why Choose John Keells IT?

- **Global Reach:** Spanning Asia, Europe, Africa, and Australia, with 100+ success stories.
- **Trusted Partner:** We're the digital ally of Sri Lanka's largest conglomerate, serving 7 diverse industries.
- **Azure Arc Experts:** Certified Microsoft engineers for seamless Azure Arc onboarding.
- **Proven Prowess:** Successfully implemented Azure Arc for expansive, multi-environment enterprises.
- Choose John Keells IT for Smooth Azure Arc Adoption and Unlock Unified Management Across Your IT Landscape!
