Microsoft Teams Premium

DATA SHEET

Get the Most out of Teams Premium with New Era Technology
Microsoft Teams Premium is designed to enhance the standard Teams experience, offering a suite of advanced features that cater to a variety of meeting scenarios. With Teams Premium, users can enjoy AI-powered meeting summaries, real-time translation, and virtual appointments, making every interaction more intelligent and engaging. The service also includes capabilities for hosting webinars and Microsoft Mesh avatars for immersive 3D experiences. Security is a top priority, with options for end-to-end encryption, sensitivity labels, and advanced meeting protections to ensure confidentiality. Teams Premium is available as an add-on subscription, providing a more personalized, protected, and productive meeting environment.

Key Scenarios for Teams Premium

Enhancing Acquisition Experience Leveraging Teams Premium

Embrace
- Get answers to common IT, HR, and other questions from a Virtual Agent
- Meet with a migration concierge for more complex questions via Virtual Appointment

Integrate
- Have secure cross-organization collaboration with Meeting Templates and Advanced Protection
- Host tailored acquisition events with Town Halls and Webinars

Assimilate
- Unify organizational culture with branded backgrounds via Meeting Templates
- Improve new team dynamics with Meeting Summaries and Intelligent Recap

Benefits

- More intelligent with use of AI-powered meetings
- Translate in real-time
- Collaborate more securely to meet your organization's needs
- Infuse your organization's standards into every interaction
- Deliver large-scale, professionally produced town halls

Demonstrating Secure Meetings in Regulated Industries

Secure

- Ensure full end-to-end encryption with Advanced Meeting Protection

- Consistently secure collaboration with Controlled-Content Meeting Templates

Private

- Prevent data leakage with Auto-blur, Copy/Paste, and Chat Controls

- Protect content with audio, video, and shared screen Watermarks

Controlled

- Keep granular access restrictions via application of Sensitivity Labels

- Limit recordings to only authorized accounts via meeting configurable Recording Permissions

Advanced Webinar Learnings from a 20-year Diigital Event Heritage*
Coming Soon

Registration

- During pilot, small-group, or specialized events customizing the participant group with Manual Approval of Registrants is preferred

- For those events with a more general audience or larger capacity, a Webinar Wait List is suggested

Support

- Providing a support contact center for events hosted virtually as well as on-site support as Town Halls increase Capacity

Interaction

- For certain events presenters may prefer forcing the perspective of virtual attendees via View Management

- Disable or moderate Q&A chat for decorum
