

Elevate Your Security Posture with Microsoft: Microsoft Security Overview Briefing

Microsoft Security Cybersecurity Assessment

The Cybersecurity Assessment is designed to evaluate a customer's cybersecurity posture and reduce their risk exposure by using advanced Microsoft Security products: Microsoft Defender Vulnerability Management, Secure Score, Microsoft Purview for Information Protection Content Explorer, and Insider Risk. The Cybersecurity Assessment is delivered in the customer's production environment by evaluating their current cybersecurity maturity level, discovering and addressing vulnerabilities on clients and servers, and understanding risks related to data security and insider threats. The Cybersecurity Assessment will provide recommendations and guidance on the next steps to improve their cybersecurity posture and reduce risk exposure based on the assessment findings.

Objectives Include:

- Analyze the customers' production environment and their current cybersecurity maturity level based on v8 of the CIS Critical Security Controls.
- A data security assessment using:
 - Microsoft Purview Information Protection Content Explorer
 - Microsoft Purview Insider Risk Management Analytics
- A vulnerability assessment using:
 - Microsoft Defender Vulnerability Management
 - Microsoft Secure Score
- 12 Month Security Road Map with prioritized recommendations

Why CDI?

CDI LLC has over 25 years of experience in providing technology solutions to businesses across various industries. Our team of experts has the expertise to design, implement, and manage complex technology solutions, ensuring that clients achieve their desired outcomes.

We can provide end-to-end solutions, from consultation to implementation and ongoing support. We also offer a wide range of services, including cloud computing, cybersecurity, networking, data center solutions, and more, to meet the diverse needs of businesses.

Solutions are built with quality assurance in mind, ensuring that we are reliable, scalable, and secure. We also provide ongoing monitoring and maintenance to ensure that solutions continue to perform at optimal levels. CDI works closely with clients to understand their unique needs, and their solutions are designed to meet those needs.
