

AI-powered FutureScape consulting

*Getting started on
your AI journey*

Atlas specializes in crafting AI solutions to meet unique business needs, aligning cutting-edge AI technologies with your strategic objectives to deliver impactful and practical applications.

Phase 1: Discovery & ideation

Goal: Grasp objectives, challenges, and needs ° Foster AI innovation

Activities: Conduct stakeholder interviews ° Identify & analyze pain points ° Idea generation workshops

Deliverables: Full organizational analysis report ° Prioritized AI use case list

Phase 2: Use case definition

Goal: Establish criteria for feasible AI projects; evaluate potential impact

Activities: Gather requirements ° Audit data ° Analyze impact

Deliverables: Detailed requirements & impact reports for select AI use cases

Phase 3: AI strategy & roadmap development

Goal: Develop a holistic AI strategy & implementation plan, aligned with goals

Activities: Formulate strategy formulation ° Assess technology ° Develop roadmap ° Assess risk

Deliverables: AI strategy document ° Detailed AI implementation roadmap.
