### Interactive Drill down filters

Add drill-down filter fields to the page with the Filter web part. Connection to charts on the page is automatic and updates are seamless across all your team's users..

Our filtering function requires almost no configuration and no coding - simply select the field to filter on.

### Combine with SharePoint Modern Web Parts

No two ListBurst dashboards are the same – create something truly tailored to your needs. Build a modern SharePoint Page using your selection of web parts.

### Aggregate, filter, sort, and combine your data

Need to aggregate your data? No problem. Fine-tune your data with powerful data aggregation and filtering options. Select a list view to display, and easily apply grouping and aggregation to the data.

Combine multiple series on to a single chart.

Matters closed, past 7 days

### Combine multiple series on to a single chart.

Creating data visualizations couldn't be simpler - add the web part, choose the data source, select your chart type and it'll render immediately on your page.

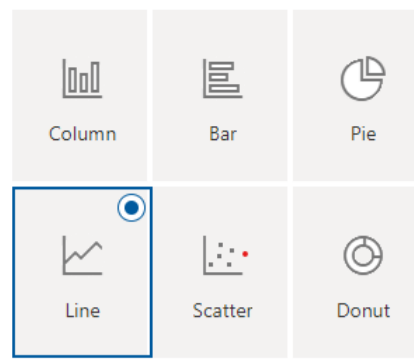

## No Code Required

No custom code, no complex configuration. Business of every technical ability and skillset take control over design and maintenance of the dashboard as requirements evolve.

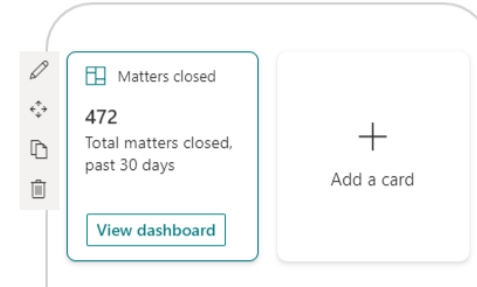

## Viva Connections support

Includes a Viva Connections web part. Display KPIs within Viva and link to the full dashboard.

## Native Microsoft Teams Integration

We're always adding new features, and we're delighted to roll out a popular new addition. Add a Teams Chart Tab natively, or embed a full SharePoint page dashboard within Teams.

## Gantt Chart

Includes a basic Gantt chart. For more advanced Gantt charts see our [dedicated Gantt solution](#).

## Pricing

Get started with your free trial today. Our licence applies to the whole SharePoint tenant - meaning you don't need to worry about users and individual permissions!
