SharePoint Migration: On-Prem to Cloud

Why SharePoint Online?

Access to data and information has always been an important part of running a business. The ease and agility in which that data needs to be accessed drives business goals. The modern experience features in Microsoft SharePoint Online are designed to be flexible to meet those exact needs.

Synergy Technical understands the challenges and goals of an organization looking to move to the cloud. **With our SharePoint Migration Engagement, you will experience the power and innovation that SharePoint in the cloud can bring to your organization.**

SharePoint Migration benefits:

- **Collaboration**
  - We understand the goals, regulations, and timelines that go into a successful migration. With our team of experts, plan, build, and deploy SharePoint Online to fit your organization's needs.
- **Drive the Process**
  - Your business needs and capabilities propel the speed of your migration. Synergy Technical's experts will help prepare the best roadmap for your move to the cloud, whether that be a tactical move or a more significant move.
- **Own the Solution**
  - We empower our customers with the training and education that boosts adoption within a customer's environment.

Included in the SharePoint Migration:

- Configuration and Design of SharePoint Online Environment
- Content Migration
- Roadmap Planning for SharePoint
- Admin Walkthroughs & Guides
