Inventory App

The Inventory App is designed specifically to help you and your team manage stock levels at any hour of the day. It's centred around collaboration in Microsoft Teams to offer a frictionless and seamless experience across all devices, in the users own language.

Built for Microsoft Teams, the Inventory App can be accessed via the Viva Connections dashboard or as a pinned tab, meaning your employees can collaborate in one central and mobile first location. The application can integrate with your existing stock system, or one can be designed for your unique needs. Built as a single page app, if your organisation is not ready for Teams, users can access through the web.

Expected outcomes

- ✓ Reduced manual effort for the store manager
- ✓ Reduced time to count inventory
- ✓ Reduced waste, helping meet sustainability goals
- ✓ Real time reporting allows for data driven decisions
- ✓ Highlights irregular stock variances
- ✓ Good accessibility due to regionalisation and translation of content

Our engagement will be split across 3 phases:

Discovery & Design

In phase 1 we will begin with a requirements gathering workshop teamed with vision and success workshops to ensure we have understood your brief in detail. Once completed, we will move into the graphic and architectural designs to ensure you are happy with the final designs.

Release 1 (MVP)

In phase 2 we will bring your own inventory app to life through a minimal viable product (MVP). Throughout this phase we will be in regular contact to review the solution and once happy we will move into UAT and testing to ensure it meets your requirements.

Release 2

In phase 3 and with your MVP fully approved, we will build your final solution. Within this phase translations and regionalizations will be introduced, as well MVP improvements. We will end this phase with final testing to ensure satisfaction of your new solution is guaranteed.

Project pathway:

What is the timeframe of this engagement?

6 months

What is the expected investment?

Starting from $250,000 AUD

Who is this engagement suitable for?

Any organisation who manages stock inventory

About Engage Squared

Engage Squared is an Australian-based Microsoft Solutions Partner. We're Modern Work Specialists that have been named as the 2021 Partner of the Year for Australia and won the global Employee Experience award in 2022. We specialise in creating **<people> friendly technology**.

Our mission is to make work better. We empower employees to enjoy work more – using Microsoft tools to make work more productive, collaborative and connected.

From design, to technical build, our team of experts use their broad range of skills across project delivery, cloud strategy, user experience design, governance, agile development, change management, and security to help our clients get the most of technology.

Whatever shape your company, however wonderfully unique your people, we'll tailor the tech, so it fits.
