

Teams Collab Rapid Deploy

Collaborate quickly and seamlessly with Microsoft Teams.

Our Approach

- Plan and Design
- Refine Requirements and Use Cases
- Align the Technologies
- Deploy, Secure and Test
- Train, Support and Adopt
- Optimize and Operationalize

Common Challenges

- Separate solutions for collaboration, File Shares, Legacy SharePoint and other third-party collaboration tools
- Business needs consistent collaboration experiences and centralized data management
- Users and identity management across too many platforms
- Support different user personas, light user vs. power user
- Ensuring expert operational capabilities of critical business systems

Benefits

- ✓ Reduce IT costs and improve ROI: retiring / replacing other services and potential hardware by migrating content to Teams
- ✓ Reduce risk and security posture: negate security challenges when incorporating M365 Security and integrated compliance center to more efficiently manage collaboration content
- ✓ Eliminate Shadow IT Collaboration Solutions and control external sharing
- ✓ Expand with Microsoft Purview for data governance, DLP policies and labeling for data sensitivity
- ✓ Cloud optimization with low-investment Power Apps workflow automation or low-code app development

What's Included

- Workshops and design sessions to develop your plan of an integrated device management deployment to meet business requirements and finalize strategy for a POC or Pilot
- Modern Management Design and Deployment plan
- Implementation schedule
- Deployment of Intune, MECM and Autopilot
- Enrollment of defined POC users / devices
- Execution of Autopilot Device Provisioning POC
- Assistance with test plan and execution

Service Options

30 Day: This 10-day engagement establishes a baseline for your Teams and a Teams template specific to a defined number of use cases or immediate challenges. We will work directly with a change management specialist to define specific personas, nurture quick adoption from employees, develop internal communications and training plans and outline short-term goals.

90 Day: Building on the 30-day engagement, our experts will help expand strategic impacts across your organization by identifying opportunities for automation using the Power Platform. We will monitor long-term KPIs, continue education around Teams and provide your business with insights on employee engagement.

Why iVision?

People

We promote productivity and collaboration through proactive management, clear expectations and technical expertise.

Process

Our structured and repeatable approach is based on strategic methodology that allows you to capitalize on opportunity.

Technology

Our proven partner ecosystem empowers us to deliver the most innovative solutions for your technology needs.
