

NousMigrator™ for Azure DevOps-GitHub

Accelerate your journey to the cloud - 4 times faster!

By 2023, 90% of organizations will fail to meet the required release velocities to deliver full business value to their customers if they use a centralized release management approach in DevOps environments.

Future-proof your business today

NousMigrator™ for Azure DevOps-GitHub, an auto-migration tool, enables you to migrate to Git-based repositories in a fast, reliable, and hassle-free manner.

Solution highlights

Insight-driven migration

- Gain visual insights into current repositories
- Define your Masters, Branches, and Trunks
- Migrate in just 3 steps
Discover > Map > Migrate

You define how you want to do it.
More power to you

Hassle-free

- Zero impact to existing repositories
- Keep all metadata intact
- Snapshot-based migration
- Migration validation

A complete peace-of-mind package

Fastest route

- Move to the cloud in days, not months
- Automated migration - less prone to human errors
- Dedicated support team for quicker resolution of issues

Move to Git-based source code repositories in just a few clicks!

Why move your code repositories to the cloud?

- Faster time-to-market
- Automation
- Ready-to-use extensions
- Pay-as-you-go
- Growing partner ecosystem
- Highly secure
- Programmable
- Scalable
