

NERDIO ON AVD QUICKSTART

MANAGE AVD WITH NERDIO MANAGER FOR ENTERPRISE

Learn how you can optimize a work-from-anywhere workforce, manage workloads, control costs, and deliver the most secure experience for your team with the Azure Virtual Desktop and the power of Nerdio Manager for an AVD Quick Start Engagement. Nerdio Manager for Enterprise extends the native Azure Virtual Desktop and Windows 365 admin capabilities with automatic and fast virtual desktop deployment, simple management in just a few clicks, and cost-optimization features.

Our AVD Quick Start Includes

Our Experts will quickly and efficiently deploy Azure leveraging Microsoft Best Practices through the Common Adoption Framework (CAF) and automate Cloud Desktops using Nerdio and Azure Virtual Desktop (AVD).

- Isolated Azure Subscription
- Integration of Nerdio Manager
- VPN to Apps and Data (1)
- Win 10-MS Image (1)
- Microsoft 365 & FSLogix Integrated
- OneDrive or Azure Files Svc
- Deploy Host Pool – 25 users
- Branded AVD Access Guide
